Chandler + Arizona
Where Values Make The Difference

RIGGS ROAD IMPROVEMENTS
GILBERT ROAD TO VAL VISTA DRIVE

CITY OF CHANDLER
PROJECT SUMMARY

PURPOSE:

Major improvements are under design for another two mile stretch of Riggs Road between Gilbert Road and Val Vista Drive. The design goals of increasing capacity and safety on this roadway are linked to other key factors such as reuse of the existing roadway and minimizing land acquisition needs.

This project will widen Riggs Road to six lanes with new curb and gutter, sidewalks, driveways, drainage improvements, street lights, bike lanes, medians and landscaping. Right of Way acquisition by the **City of Chandler** is required.

This project begins on Riggs Road east of the Gilbert Road intersection matching the existing six lane roadway section. The Riggs and Lindsay Road intersection will be completely rebuilt and the new six lane section will end just west of Val Vista Drive at the **City of Chandler** city limit with the Town of Gilbert. Improvements will also be made to side streets and other access points.

Construction for this project is scheduled to begin in the summer of 2007. Access to businesses and residences will be maintained during construction to the highest level possible.
