

## Homeowner's Association Matching Grant Program Letter from the Director

*“When all is said and done, the real citadel of strength of any community is in the hearts and minds and desires of those who dwell there.”*

*Everett Dirksen  
U. S. Congressman*

Thank you for your interest in the City of Chandler's Homeowner's Association (HOA) Matching Grant Program. This program provides funding of up to \$5,000 to registered homeowner associations within the City. Recipients are eligible to receive the grant once every five years.

Neighborhoods are the foundation of a community and Chandler's neighborhood grant program is committed to promoting strong, vibrant and involved neighborhoods.

Grant applications are accepted throughout the year and funding allocations are approved by the City Council. The City began the program in 2000, and has funded 86 neighborhood grants with 40 of those awarded specifically to HOAs. Currently the City of Chandler Neighborhood Grant Programs are funded at \$34,400 annually.

The HOA Matching Grant Program empowers resident leaders, promotes resident participation and improves the quality of life in Chandler neighborhoods. The grants are designed to assist in strengthening and sustaining the social network of the Chandler community while dealing creatively to address cultural, security, beautification, recreation, and family/youth issues through resident-driven activities within each neighborhood.

The grants encourage and support neighborhood groups to invest in and build on the existing strengths and assets of each neighborhood. Grants are intended to spur small grassroots community efforts and improve the quality of life of each neighborhood through resident involvement.

The program is an opportunity for residents to learn the value of community and how neighborhood partnerships can be effectively invested to support strong and stable neighborhoods throughout the City of Chandler.

This packet contains information about the HOA grant process. **Please read the guidelines carefully.** If you have any questions regarding the grant application or process, please call the Office of Neighborhood Programs at 480-782-4348.

Thank you for your interest in the HOA Matching Grant Program and in your desire to make a difference in your neighborhood and the community.

Sincerely,  
*Jennifer Morrison*

## Homeowner's Association Matching Grant Program Requirements

Thank you for your interest in the City of Chandler Homeowner's Association Matching Grant Program. This packet contains an overview of the grant process. Grant applications are accepted anytime throughout the year. Please call the Office of Neighborhood Programs at 480-782-4348 if you have questions regarding the grant application or process.

### Program Description

Under the Homeowners' Association Matching Grant Program (the "HOA Program"), the City may provide a grant award to a homeowners' association ("HOA") for a small neighborhood improvement project. The amount of the grant award shall not exceed 50% of the cost of the project or \$5,000, whichever is greater, and no grant funds shall be paid out by the City toward a project without receipt of documentation evidencing payment by the HOA of its proportionate share of the project costs (the "cash match").

---

### Application Requirements

To be considered for an award under the HOA Program, an applicant shall comply with each of the following application requirements:

1. The neighborhood shall be an HOA, by which is meant an "association" as defined in A.R.S. § 33-1802
2. An active and current participant in the City of Chandler Neighborhood Registration Program.
3. The applicant shall have reviewed the grant requirements with a Neighborhood Programs Coordinator
4. The applicant shall not have been awarded a grant under any neighborhood grant program of the City of Chandler within the five-year period immediately preceding the date of the filing of the application for benefits under this HOA Program, and
5. The applicant shall not hold an uncompleted grant from the City of Chandler for any year prior to the date of the filing of the application for benefits under this HOA Program.
6. The project for which an award is sought shall be of an "eligible project type" as described in the next section below, and
7. The project for which an award is sought shall not have commenced prior to the City providing written approval of the grant award for the project. Any on-going project and any funding expended prior to approval of the grant are not eligible for the HOA Program.
8. A completed written application in such form as may be required by the City and signed by an authorized representative for the HOA shall be submitted to the Division office. In addition, where applicable, the following additional information/documentation shall be provided before the application is deemed complete:
  - In all cases, a site plan drawing indicating the site location of the proposed project must be submitted with the application. Where the proposed project is such that a permit -- either a building permit, a special use permit or both -- must be issued by the City prior to commencing construction of the project improvements, the more detailed site plan normally required for such a permit may be also be submitted as part of the HOA Program application.
  - If construction or other work for the proposed project will be done by a contractor retained by the HOA, three (3) written proposals or bids for construction or service must be attached with the application, together with a copy of the contract agreement executed or to be executed by the HOA with the contractor selected for the work.

## Eligible Projects

There are four eligible project types for which a grant may be awarded. They are:

- Improvement of monument entry signs
- Painting of planned development perimeter walls
- Enhanced landscaping in development common areas
- General enhancement projects

The improvements to be constructed, repaired, replaced or maintained as part of the eligible project must occur in areas of the development that are viewable by the general public. All such projects must be in compliance with applicable City zoning and development requirements. The award of a grant under this program does not constitute any required zoning or development approval or building or use permit approval, and the award may be conditioned upon any such approvals being obtained by the HOA within a reasonable period of time, not to exceed 6 months, following the making of the award.

---

## Selection Process

An application filed under the HOA Program shall be processed as follows:

1. A Division staff member will review the grant application for completeness and basic eligibility. Deficiencies will be noted and must be corrected by the applicant prior to the application being deemed completed.
2. A completed application will be submitted to the Grant Review Committee, which is comprised of select City staff members, who will review the proposed project and overall impact it will have on the applicant's neighborhood and the general community. The committee will use a point system to rate each application based on the following:
  - Is there substantial community involvement in the project?
  - To what extent will the project contribute to the long-term sustainability of the neighborhood or avoid slum or blighted conditions from occurring?
  - Is there a need for grant funds in order for the project to be undertaken/completed or are other means of funding available?
  - Is there documentation to verify the HOA's financial condition in the preceding two years?
  - To what extent will the project enhance the appearance of the neighborhood and improve the quality of life in and around the neighborhood?
  - To what extent will the general-public be impacted by the enhanced visual appearance of the neighborhood resulting from the project? (E.g., a project involving improvements along an arterial road within the city limits will generally be considered to impact the general public to a greater extent than a project whose improvements are more localized.)
3. The Grant Review Committee will forward the application, together with its recommendation and rating of the application, to the City's Neighborhood Advisory Committee (NAC). NAC will hold a meeting at which the applicant may speak in support of the application and answer any questions, after which NAC will make a recommendation to Council on the application. The applicant will be notified of the time, date and place of the NAC meeting.
4. NAC will forward the application, together with its recommendation, to the City Council for final action. The applicant will be notified of the time, date and place of the Council meeting at which the application will be considered. Council may approve the application (with or without special conditions) or deny the application.
5. Neighborhood Resources Division staff will provide written notice by email of the action taken by the City Council. Notice of approval will be deemed to constitute grant approval and the date of such notice shall

constitute the “award date.” If an application is denied, the applicant may reapply on or after the 31<sup>st</sup> day following the date that the notice of denial is transmitted.

---

## Standard Conditions of Grant Award

Approval of an application shall be deemed to include the following standard conditions to be completed during the 12-month period following the award date:

### 1. Neighborhood Safety

The HOA must be an active participant in the City of Chandler Block Watch Program. If the HOA is already enrolled in Block Watch, then the HOA must participate in the annual GAIN Event held every October. Up to \$150 of the cost incurred by the HOA to install the Block Watch signs and/or hold a GAIN Event can be used to offset the cash match required for the project as long as proper documentation is provided (e.g., expense report, proof of payment, etc.).

### 2. Neighborhood Outreach

The HOA must provide evidence of resident involvement and outreach through community meetings, neighborhood events, sweat equity activity, volunteerism and/or communication tools such as newsletters, fliers, neighborhood web page site, etc. Up to \$150 of the cost incurred by the HOA for neighborhood outreach can be used to offset the cash match required for the project as long as proper documentation is provided (e.g., expense report, proof of payment, etc.).

### 3. Neighborhood Education

A minimum of 10 residents from the neighborhood must participate in a City-sponsored event such as the Congress of Neighborhoods, or hold an approved educational event, such as an HOA education class. Such a class must be open to all residents and written notice must be provided to the members of the HOA at least two weeks prior to the date of the class. A minimum participation of 10 members/residents is required. The educational class, time and location must be coordinated through the Neighborhood Programs Section of the Division. Up to \$150 of the cost incurred by the HOA to offer this class can be used to offset the cash match required for the project as long as proper documentation is provided.

### 4. Presentation and Report to the NAC

Once grant activities are completed, a Project Completion presentation and report must be provided to NAC in order to highlight and share successes of the Program. Both the presentation and the report must clearly outline resident activities that supported an increase in the neighborhood’s social network. The HOA will be notified of the time, date and location of the NAC meeting.

### 5. Cash Match

The HOA must complete the payment of its proportionate share of the total project cost and provide evidence thereof to the City.

---

## Project Completion

### Timeline

The project must be completed within 12 months from the award date. If the project is not completed within this time frame, the HOA may be requested to provide a written statement as to why the project has not been timely completed. If the HOA has not provided such written statement within fourteen (14) days of the request, the grant award will be deemed forfeited and the HOA will have to reapply. The 12 month period is a maximum time period; many projects can and should be completed in a shorter time frame.

### Payment Requirements

The HOA must meet such payment requirements as set by the Division in order to comply with any federal or state tax requirements.
