7. BACKGROUND/DISCUSSION: The Streets Division will be crushing approximately 30,000 tons of asphalt millings in current City stockpiles with the expectation of crushing an additional 13,808 tons of asphalt materials from upcoming paving projects. The crushed millings will be utilized for our alley and road shoulder dust suppression, alley rehabilitation, and alley grant programs throughout the City as part of the County's regional PM-10 5% reduction plan required by the Environmental Protection Agency through the State of Arizona. The work will consist of crushing and restacking the asphalt millings stockpile to a 3/4" minus size which has a proven uniformity favorable for grading, compacting, and excellent dust suppression characteristics. This process will significantly reduce dust emissions in the alleys and recycle asphalt-milling materials as an environmentally sound effort.

8. EVALUATION PROCESS: On February 7, 2012, staff issued an Invitation for Bid for Asphalt & Concrete Crushing to be used by the Streets Division. This solicitation was done as an upfront cooperative bid with the City of Apache Junction. The contractor is responsible for providing all machinery/equipment necessary to perform asphalt/concrete crushing as well as stockpiling and hauling, if necessary, to the City's main asphalt milling stockpile located at the Reverse Osmosis plant. All registered vendors were notified, including all known Chandler vendors, and three (3) responses were received and evaluated.
