

of the subject site, and beyond the Consolidated Canal is the Santan Vista single-family residential neighborhood. West of the subject site is the Southern Pacific Railroad. Beyond the railroad tracks is PAD zoned property for industrial uses, Planned Industrial (I-1), and Industrial zoned property in the County. Located at the northwest corner of the site is a Salt River Project substation.

Late last year the subject site went through a zoning extension, a rezoning to eliminate a condition requiring homes to be custom built, and PDP approval for modifications to the previously approved subdivision layout. The approved subdivision layout was for a 99-lot single-family residential subdivision. At the time of approval housing plans were not included, requiring future PDP submittal and approval.

Following last year's Rezoning and PDP approvals, Fulton Homes purchased the site and requested minor modifications to the site layout. Fulton Homes reduced the number of lots from 99 to 87, eliminated a substantial amount of decomposed granite in the enlarged open space area and replaced it with turf, increased the amount of outdoor amenities, and modified the wall details. Staff reviewed the requests and found that the proposed modifications were in substantial conformance or better than what was previously approved, and administratively approved the modifications.

Based on the General Plan the subject site is located within the Southeast Chandler Area Plan (SECAP), and designated as supporting Traditional Suburban Character type neighborhoods. The SECAP allows for residential density to be 2.5 dwelling units per acre, and provides provision for up to 3.5 dwelling units per acre, based upon amenities provided to the subdivision. Due to the reduction in lots, the density was reduced from 2.87 to 2.5 dwelling units per acre.

HOUSING PRODUCT

The subdivision consists of 87 lots with a minimum lot dimension of 60' x 120'. The previous approval was for 55' wide lots with a depth of 120'. Building setbacks were established with the previous PDP approval and are consistent with the surrounding area. In addition to meeting elements in the RDS for subdivision diversity, the housing product also needs to meet a number of elements required in the RDS. Required architectural elements as outlined in the RDS include providing at least three different architectural style differences, prohibiting the same elevation adjacent to and across the street from each other, and providing four-sided architectural elements among other requirements.

Architectural styles include Cottage, Ranch, and Farmhouse. The Farmhouse style architecture is new to Fulton Homes' product line-up. Architectural elements include corbels, stacked stone, arched windows, shutter details, wing walls, concrete lap siding, and board and batten elements. Additionally, window mullions are provided throughout all elevations, and each architectural style will provide enhanced garage door designs consistent with the prescribed architectural style. Options are offered for front door designs. Of the eight plans provided, two are side-entry garage, one is a two-car side entry with a single front load garage, and five provide forward facing garages. All of the forward facing garages provide side-by-side parking stalls with a tandem space.

As proposed, the homebuilder is providing eight floor plans; four single-story plans and four two-story plans. The homes will range in size from 1,997 square feet up to 3,801 square feet. The design team has done an excellent job in providing diversity throughout the housing product. Box-on-box concerns with two-story homes have been prevented through the use of single-story wrap around elements, providing shadowboxes, and by providing break-ups in the roof ridgelines. Additionally, Fulton Homes predetermines where certain floor plans can locate throughout the subdivision, thus preventing concerns about same elevations being located side-by-side. Furthermore, due to the recent approvals of the subdivision, a number of the typical conditions of approval for subdivision layout and lot restrictions were approved with the prior approvals. These conditions included the restriction of two-story homes on corner lots, and limiting the number of two story homes adjacent to Riggs Road.

DISCUSSION

Planning Commission and Staff support the request citing the design team has done an excellent job in providing additional diversity to the housing stock in southeast Chandler. Furthermore, by providing such a wide array of floor plans and elevation options for so few lots, diversity within the subdivision will be natural.

PUBLIC/NEIGHBORHOOD NOTIFICATION

This request was noticed in accordance with the requirements of the Chandler Zoning Code.

- A neighborhood meeting was held on Monday, June 4, 2012. Two neighbors attended the meeting and were supportive of the request.

At the time of this writing, Staff has received no telephone calls or letters opposed to this application.

PLANNING COMMISSION VOTE REPORT

Motion to Approve:

In Favor: 5 Opposed: 0 Absent: 2 (Baron, Donaldson)

RECOMMENDED ACTION

Planning Commission and Staff, upon finding consistency with the General Plan, SECAP, and PAD zoning, recommend approval of PDP12-0006 OASIS AT AUTUMN PARK, subject to the following conditions:

1. Development shall be in substantial conformance with Attachment No. 8, Development Booklet, entitled "OASIS AT AUTUMN PARK", kept on file in the City of Chandler Transportation & Development Services Department, Planning Division, in File No. PDP12-0006 OASIS AT AUTUMN PARK, except as modified by condition herein.
2. Compliance with original conditions adopted by the City Council as Ordinance No. 3995 in case DVR07-0032 GALILEO PIAZZA, except as modified by condition.

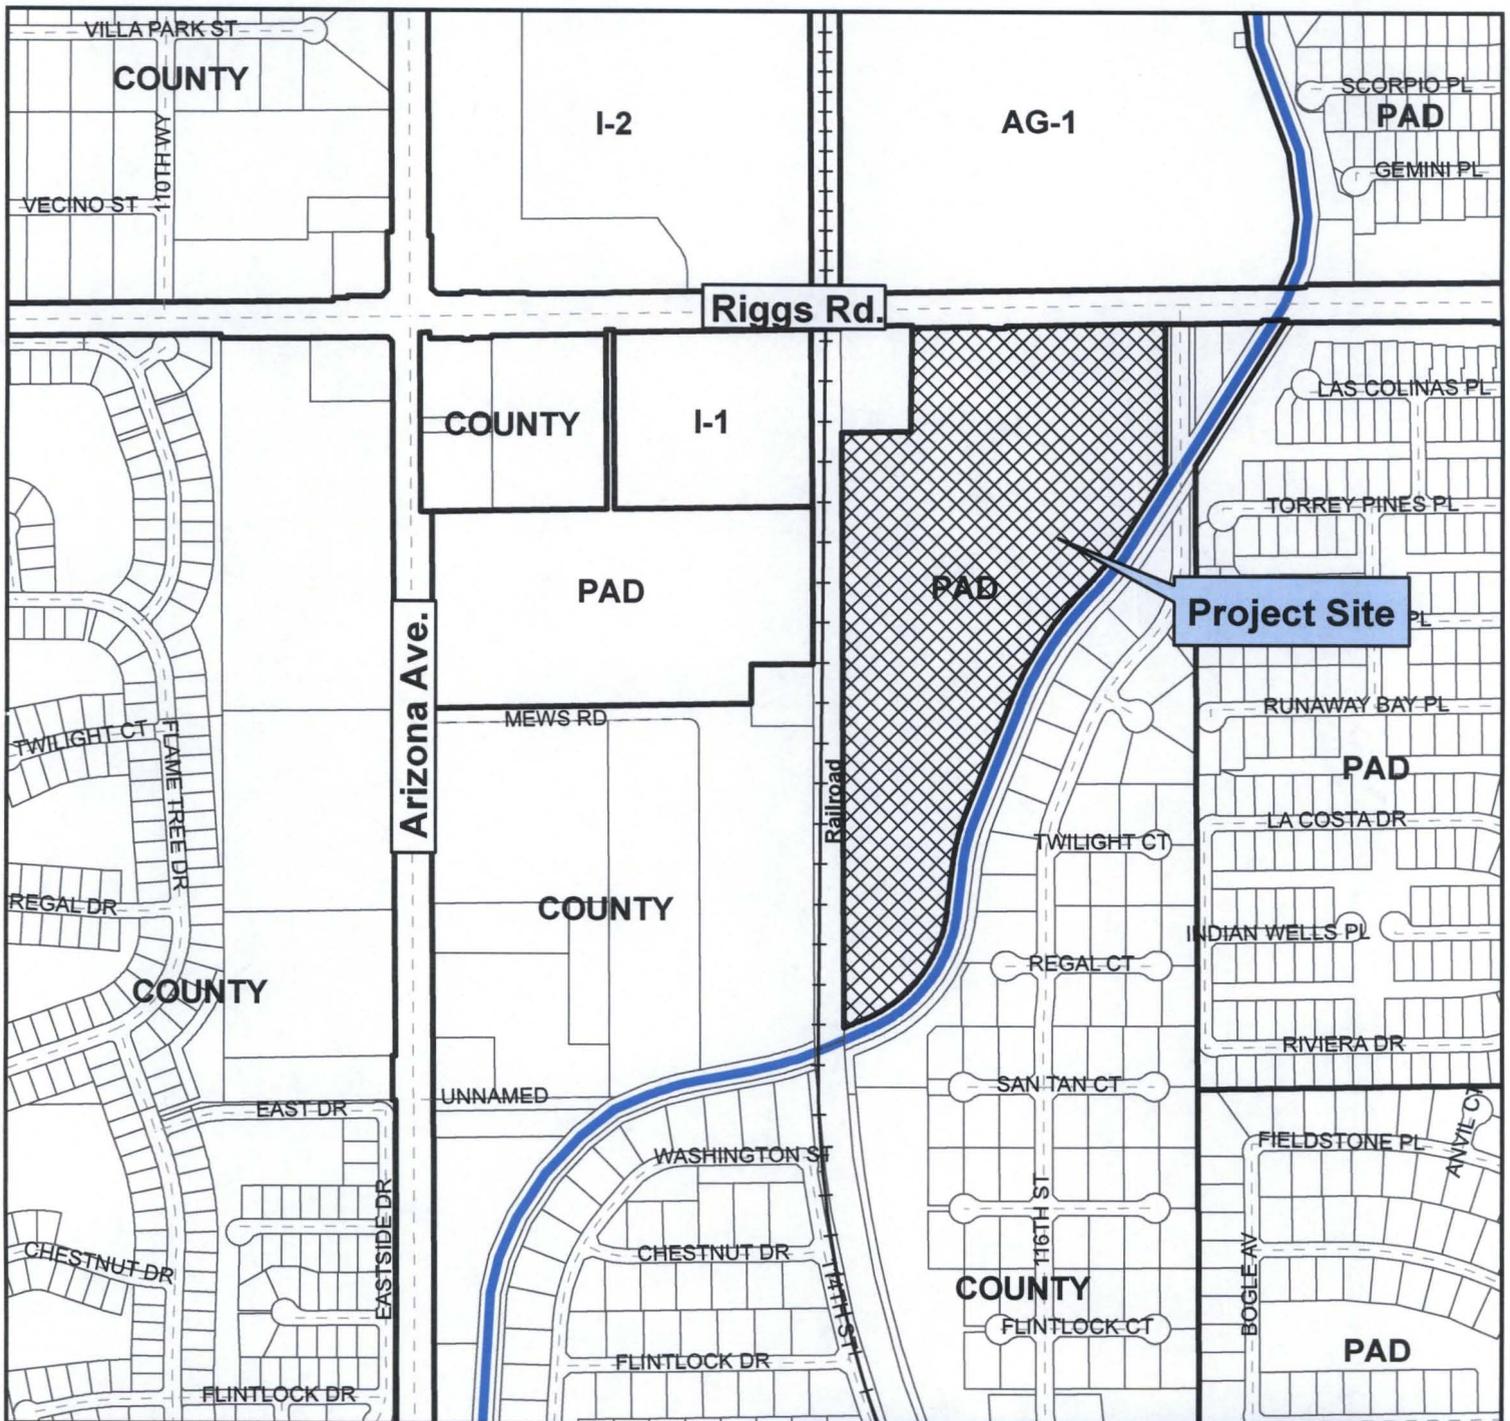

3. Compliance with original conditions adopted by City Council as Ordinance No. 4318 in case DVR11-0010 AUTUMN PARK, except as modified by condition.

PROPOSED MOTION

Move to approve PDP12-0006 OASIS AT AUTUMN PARK, Preliminary Development Plan approval for housing product; subject to the conditions recommended by Planning Commission and Staff.

ORDINANCE NO. 3995

AN ORDINANCE OF THE CITY OF CHANDLER, ARIZONA, AMENDING THE ZONING CODE AND MAP ATTACHED THERETO, BY REZONING A PARCEL FROM AGRICULTURAL DISTRICT (AG-1) TO PLANNED AREA DEVELOPMENT (PAD) (DVR07-0032 GALILEO PIAZZA) LOCATED WITHIN THE CORPORATE LIMITS OF THE CITY OF CHANDLER, ARIZONA.

WHEREAS, application for rezoning involving certain property within the corporate limits of Chandler, Arizona, has been filed in accordance with Article XXVI of the Chandler Zoning Code; and

WHEREAS, the application has been published in a local newspaper with general circulation in the City of Chandler, giving fifteen (15) days notice of time, place and date of public hearing; and

WHEREAS, a notice of such hearing was posted on the property at least seven (7) days prior to said public hearing; and

WHEREAS, a public hearing was held by the Planning and Zoning Commission as required by the Zoning Code

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Chandler, Arizona, as follows:

SECTION I. Legal Description of Property:

See Attachment 'A'

Said parcel is hereby rezoned from AG-1 to PAD, subject to the following conditions:

1. Construction shall commence above foundation walls within three (3) years of the effective date of the ordinance granting this rezoning or the City shall schedule a public hearing to take administrative action to extend, remove or determine compliance with the schedule for development or take legislative action to cause the property to revert to its former zoning classification.
2. Development shall be in substantial conformance with Exhibit F, Development Booklet, entitled "GALILEO", kept on file in the City of Chandler Planning Services Division, in File No. DVR07-0032, except as modified by condition herein.
3. Right-of-way dedications to achieve full half-widths, including turn lanes and deceleration lanes, per the standards of the Chandler Transportation Plan.
4. Undergrounding of all overhead electric (less than 69kv), communication, and television lines and any open irrigation ditches or canals located on the site or within adjacent right-of-ways and/or easements. Any 69kv or larger electric lines that must stay overhead shall be located in accordance with the City's adopted design and engineering standards. The aboveground utility

poles, boxes, cabinets, or similar appurtenances shall be located outside of the ultimate right-of-way and within a specific utility easement.

5. Future median openings shall be located and designed in compliance with City adopted design standards (Technical Design Manual # 4).
6. Completion of the construction of all required off-site street improvements including but not limited to paving, landscaping, curb, gutter and sidewalks, median improvements and street lighting to achieve conformance with City codes, standard details, and design manuals.
7. The developer shall be required to install landscaping in the arterial street median(s) adjoining this project. In the event that the landscaping already exists within such median(s), the developer shall be required to upgrade such landscaping to meet current City standards.
8. The covenants, conditions and restrictions (CC & R's) to be filed and recorded with the subdivision shall mandate the installation of front yard landscaping within 180 days from the date of occupancy with the homeowners' association responsible for monitoring and enforcement of this requirement.
9. The landscaping in all open-spaces and rights-of-way shall be maintained by the adjacent property owner or a homeowners' association.
10. Approval by the Director of Planning and Development of plans for landscaping (open spaces and rights-of-way) and perimeter walls and the Director of Public Works for arterial street median landscaping.
11. The development's housing product will be custom homes built by individual builders.
12. Preliminary Development Plan approval as granted herein shall apply to the subdivision layout only.
13. The source of water that shall be used on the open space, common areas, and landscape tracts shall be reclaimed water (effluent). If reclaimed water is not available at the time of construction, and the total landscapable area is 10 acres in size or greater, these areas will be irrigated and supplied with water, other than surface water from any irrigation district, by the owner of the development through sources consistent with the laws of the State of Arizona and the rules and regulations of the Arizona Department of Water Resources. If the total landscapable area is less than 10 acres in size, the open space common areas, and landscape tracts may be irrigated and supplied with water by or through the use of potable water provided by the City of Chandler or any other source that will not otherwise interfere with, impede, diminish, reduce, limit or otherwise adversely affect the City of Chandler's municipal water service area nor shall such provision of water cause a credit or charge to be made against the City of Chandler's gallons per capita per day (GPCD) allotment or allocation. However, when the City of Chandler has effluent of sufficient quantity and quality which meets the requirements of the Arizona Department of Environmental Quality for the purposes intended available to the

property to support the open space, common areas, and landscape tracts available, Chandler effluent shall be used to irrigate these areas.

In the event the owner sells or otherwise transfers the development to another person or entity, the owner will also sell or transfer to the buyer of the development, at the buyer's option, the water rights and permits then applicable to the development. The limitation that the water for the development is to be owner-provided and the restriction provided for in the preceding sentence shall be stated on the final plat governing the development, so as to provide notice to any future owners. The Public Report, Purchase Contracts, and Final Plats shall include a disclosure statement outlining that the Galileo Piazza development shall use treated effluent to maintain open space, common areas, and landscape tracts.

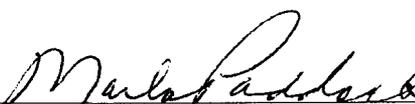

14. A minimum of two trees at a minimum of 2-inch caliper each shall be planted in all front yards.
15. The applicant shall work with Staff to enhance the perimeter fence wall along the railroad tracks by incorporating a decorative wall design such as, but not limited to color variations, decorative cap at columns and/or top of wall, and any other horizontal or vertical plane changes.
16. Prior to the time of making any lot reservations or subsequent sales agreements, the home builder/lot developer shall provide a written disclosure statement, for the signature of each buyer, acknowledging that the subdivision is located adjacent to or nearby existing Industrial zoned property. The "Public Subdivision Report", "Purchase Contracts", and CC&R's, shall include a disclosure statement outlining that the site is adjacent to or nearby existing Industrial zoned property, and the disclosure shall state that such uses are legal and should be expected to continue indefinitely. The disclosure shall be presented to prospective homebuyers on a separate, single form for them to read and sign prior to or simultaneously with executing a purchase agreement. This responsibility for notice rests with the homebuilder/lot developer and shall not be construed as an absolute guarantee by the City of Chandler for receiving such notice.

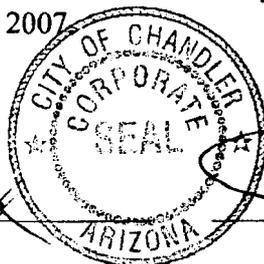

SECTION II. Except where provided, nothing contained herein shall be construed to be an abridgment of any other ordinance of the City of Chandler.

SECTION III. The Planning & Development Department of the City of Chandler is hereby directed to enter such changes and amendments as may be necessary upon the Zoning Map of said Zoning Code in compliance with this ordinance.

ORDINANCE NO. 4318

AN ORDINANCE OF THE CITY OF CHANDLER, ARIZONA, AMENDING THE ZONING CODE AND MAP ATTACHED THERETO, BY REZONING A PARCEL FROM PLANNED AREA DEVELOPMENT TO PLANNED AREA DEVELOPMENT AMENDED IN CASE DVR11-0010 (AUTUMN PARK) ELIMINATING ZONING CONDITION NO. 11 OF ORDINANCE NO. 3995 REQUIRING CUSTOM HOMES APPROVED IN CASE DVR07-0032 (GALILEO PIAZZA) LOCATED WITHIN THE CORPORATE LIMITS OF THE CITY OF CHANDLER, ARIZONA.

WHEREAS, application for rezoning involving certain property within the corporate limits of Chandler, Arizona, has been filed in accordance with Article XXVI of the Chandler Zoning Code; and

WHEREAS, the application has been published in a local newspaper with general circulation in the City of Chandler, giving fifteen (15) days notice of time, place and date of public hearing; and

WHEREAS, a notice of such hearing was posted on the property at least seven (7) days prior to said public hearing; and

WHEREAS, a public hearing was held by the Planning and Zoning Commission as required by the Zoning Code

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Chandler, Arizona, as follows:

SECTION I. Legal Description of Property:

See Attachment 'A'.

Said parcel is hereby rezoned to delete Condition No. 11 of Ordinance No. 3995 requiring custom homes in case DVR07-0032 Galileo Piazza.

Said parcel is hereby rezoned from PAD to PAD, subject to the following conditions:

1. Development shall be in substantial conformance with Attachment No. 7, Development Booklet, entitled "AUTUMN PARK", kept on file in the City of Chandler Transportation & Development Services Department, Planning Division, in File No. DVR11-0010 AUTUMN PARK, and serves to complement and supplement the Council approved development booklet kept on file in case DVR07-0032 GALILEO PIAZZA, except as modified by condition herein.
2. Compliance with original conditions adopted by the City Council as Ordinance No. 3995 in case DVR07-0032 GALILEO PIAZZA, except as modified by condition herein.

3. Construction shall commence above foundation walls within three (3) years of the effective date of the ordinance granting this rezoning or the City shall schedule a public hearing to take administrative action to extend, remove or determine compliance with the schedule for development or take legislative action to cause the property to revert to its former zoning classification.

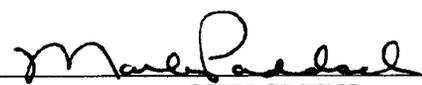

8. Prior to the time of making any lot reservations or subsequent sales agreements, the home builder/lot developer shall provide a written disclosure statement, for the signature of each buyer, acknowledging that the subdivision is located adjacent to or nearby existing railroad tracks and railroad right-of-way that may cause adverse noise, odors, and other externalities. The "Public Subdivision Report", "Purchase Contracts", CC&R's, and the individual lot property deeds shall include a disclosure statement outlining that the site is adjacent to or nearby an existing railroad track and railroad right-of-way, and the disclosure shall state that such uses are legal and should be expected to continue indefinitely. This responsibility for notice rests with the homebuilder/lot developer and shall not be construed as an absolute guarantee by the City of Chandler for receiving such notice.

SECTION II. Except where provided, nothing contained herein shall be construed to be an abridgment of any other ordinance of the City of Chandler.

SECTION III. The Planning & Development Department of the City of Chandler is hereby directed to enter such changes and amendments as may be necessary upon the Zoning Map of said Zoning Code in compliance with this ordinance.
