1. Agenda Item Number:

13

2. Council Meeting Date:
October 24, 2013

TO: MAYOR & COUNCIL

3. Date Prepared: September 30, 2013

THROUGH: CITY MANAGER

4. Requesting Department:
Transportation & Development

5. SUBJECT: Amendment No. 4 to Agreement No. ST0-745-2801 with CPC Construction, Inc., for asphalt rubber crack sealing.

6. RECOMMENDATION: Recommend City Council approval of Amendment No. 4 to Agreement No. ST0-745-2801 with CPC Construction, Inc., for a one-year extension for asphalt rubber crack sealing, in an amount not to exceed \$305,900.

7. BACKGROUND/DISCUSSION: Crack sealing is an important step in the repair process for our streets. Crack sealing protects the pavement structure by sealing cracks and preventing water from getting into and deteriorating the roadway base material. The crack repair process is accomplished by blowing the cracks clean with compressed air and then filling them with hot crack sealant material. This contract includes traffic control, cleaning, and filling of roadway cracks (see attached location map). The City provides the crack sealing material to save on crack fill material costs and the recommended contractor provides application.

8. EVALUATION PROCESS: In November 2009, City Council approved an award for asphalt rubber crack sealing to CPC Construction, Inc., with options to extend for up to four additional one-year terms. City Council has subsequently approved extensions of this contract three times, with no increase in pricing from the contractor. CPC Construction, Inc., is not requesting any price increase for this contract extension. The term of this agreement will be December 1, 2013, through November 30, 2014. This will be the fourth and final contract extension.

9. FINANCIAL IMPLICATIONS:
