5. SUBJECT: Amendment No. 2 to Agreement No. ST2-745-3068, with Southwest Slurry Seal, Inc., for slurry seal and micro seal materials

6. RECOMMENDATION: Staff recommends approval of Amendment No. 2 to Agreement No. ST2-745-3068, with Southwest Slurry Seal, Inc., for slurry seal and micro seal materials, in an amount not to exceed \$2,069,200 for one year.

7. BACKGROUND/DISCUSSION: Slurry seal and micro seal are sealants that are applied to City streets to preserve and lengthen the life of the asphalt. Due to the large investment that the City has in the transportation system, pavement sealants are used to protect this investment. The contractor applies this polymer-modified asphalt product which contains small aggregates. It adds a new riding surface to the pavement and will provide added years to the pavement life. This contract will provide 25.2 centerline miles of slurry seal and 13.6 centerline miles of micro seal on city streets. Informational door hangers will be used to notify citizens and businesses when work is scheduled. City streets will not be closed as only half a street will be sealed at a time.

8. EVALUATION PROCESS: In January 2012, City Council approved an agreement for slurry seal and micro seal materials with Southwest Slurry Seal, Inc. The agreement has provisions to extend for two additional one-year periods. City Council approved one contract extension with no increase in pricing in January 2013. The contractor has agreed to extend the agreement for an additional year without any price adjustments. This will be the second and final contract extension. The new term of this agreement will be February 1, 2014, through January 31, 2015.
