**7. BACKGROUND/DISCUSSION:** Traffic Engineering requires traffic signal poles, support equipment, and street lighting poles for replacements, new installations, and upgrades to existing intersections. Traffic Engineering supplies the traffic signal poles and mast arms on various intersection improvement projects on both Capital Improvement Projects and development projects. The lead time for purchase of this equipment is typically 12 weeks or more. The advance purchase of this equipment through this agreement will reduce the cost of construction and accelerate the completion of the improvements. The use of this agreement will be on an as-needed basis throughout the year.

**8. EVALUATION PROCESS:** City Council approved Agreement No. TE2-550-2975 for the purchase of traffic signal poles and miscellaneous hardware in September 2011. The contractors have agreed to extend the contract for the third and final year with no price increases. The term of this extension is September 1, 2014, to August 31, 2015.
