**3. Date Prepared:** September 18, 2014

**THROUGH: CITY MANAGER**

**4. Requesting Department:** Transportation & Development

**5. SUBJECT:** Agreement with Vincon Engineering Construction, LLC, for Asphalt Rubber Crack Sealing

**6. RECOMMENDATION:** Staff recommends City Council approve Agreement No. ST5-745-3433 with Vincon Engineering Construction, LLC, for Asphalt Rubber Crack Sealing, in the amount of \$300,000 for one year, with options to renew for up to four (4) additional one-year periods.

**7. BACKGROUND/DISCUSSION:** Crack sealing is an important step in the repair process for our streets. Crack sealing protects the pavement structure by sealing cracks and preventing water from getting into and deteriorating the roadway base material. The crack repair process is accomplished before the slurry seal project by blowing the cracks clean with compressed air and then filling them with hot crack sealant material.

This contract includes cleaning and filling of roadway cracks and associated traffic control (see attached location map). This contract was bid on a unit price basis with estimated quantities that can vary, as needed or as budgeted, by the City. The estimate for the contract was \$300,000 for a lesser amount of work because the per-unit bid was estimated as higher than was received from the low bidder. Because the per-unit bid was estimated as higher than was received under the per-unit bid, the Streets Division recommends the addition of more work to the contract. This additional work can be completed within the existing budget. The City provides the crack sealing material through an Arizona Department of Transportation contract to save on crack fill material costs. The recommended contractor performs the crack seal services.

**8. EVALUATION PROCESS:** On August 18, 2014, Staff issued a bid for Asphalt Rubber Crack Sealing. All registered vendors were notified. Eight (8) responses were received and evaluated.

Vincon Engineering:	\$252,000	Sunland Asphalt:	\$343,000
Graham Contractors:	\$262,500	CPC Asphalt:	\$385,000
Cholla Pavement:	\$273,000	Morgan Pavement:	\$562,170
Southwest Slurry:	\$335,300	Cactus Asphalt:	\$637,000

Staff recommends award to Vincon Engineering Construction, LLC, as the lowest responsive, responsible bidder. The contract will be for a total contract of \$300,000. The term of this agreement will be December 1, 2014 – November 30, 2015, with options to renew for up to four (4) additional one-year periods.

  9. If a Certificate of Insurance is submitted as verification of coverage, the City will reasonably rely upon the Certificate of Insurance as evidence of coverage but this acceptance and reliance will not waive or alter in any way the insurance requirements or obligations of this Agreement. If any of the required policies expire during the life of this Agreement, the CONTRACTOR must forward renewal or replacement Certificates to the City within 10 days after the renewal date containing all the necessary insurance provisions.

12. **NOTICES:** All notices or demands required to be given pursuant to the terms of this Agreement shall be given to the other party in writing, delivered by hand or registered or certified mail, at the addresses set forth below, or to such other address as the parties may substitute by written notice given in the manner prescribed in this paragraph.

13. **CONFLICT OF INTEREST:**

- 13.1. **No Kickback.** CONTRACTOR warrants that no person has been employed or retained to solicit or secure this Agreement upon an agreement or understanding for a commission, percentage, brokerage or contingent fee; and that no member of the City Council or any employee of the CITY has any interest, financially or otherwise, in the firm unless this interest has been declared pursuant to the provisions of A.R.S. Section 38-501. Any such interests were disclosed in CONTRACTOR'S proposal to the CITY.
- 13.2. **Kickback Termination.** CITY may cancel any contract or agreement, without penalty or obligation, if any person significantly involved in initiating, negotiating, securing, drafting or creating the agreement on behalf of the CITY is, at any time while the Agreement or any extension of the Agreement is in effect, an employee of any other party to the Agreement in any capacity or a CONTRACTOR to any other party to the Agreement with respect to the subject matter of the Agreement. The cancellation shall be effective when written notice from CITY is received by all other parties, unless the notice specifies a later time (A.R.S. §38-511).
- 13.3. **No Conflict:** CONTRACTOR stipulates that its officers and employees do not now have a conflict of interest and it further agrees for itself, its officers and its employees that it will not contract for or accept employment for the performance of any work or services with any individual business, corporation or government unit that would create a conflict of interest in the performance of its obligations pursuant to this project.

14. **GENERAL TERMS:**

- 14.1 **Ownership.** All deliverables and/or other products of the Contract (including but not limited to all software documentation, reports, records, summaries and other matter and materials prepared or developed by CONTRACTOR in performance of the Contract) shall be the sole, absolute and exclusive property of CITY, free from any claim or retention of right on the part of CONTRACTOR, its agents, sub-contractors, officers or employees.

#### **14.2 Performance and Payment Bonds.**

Within fifteen (15) days from the time a Contract is awarded, CONTRACTOR shall furnish fully executed Performance and Payment Bond (Labor and Materials) in such form and context as determined by CITY from a surety approved by CITY. Said bonds shall be in a sum no less than one hundred (100%) of the Contract price.

CITY has the option to forfeit said bonds if the Contract is terminated by the default of CONTRACTOR or if CITY determines that CONTRACTOR is unable or unwilling to complete the work as specified in the Contract Documents.

If the Contract schedule is not adhered to, and CITY determines that the work is unlikely to be completed within a reasonable time after the original target date, then CITY may terminate the Contract and collect the Performance Bond.

The Performance Bond will be reviewed annually and any increases in the contract amount will require bond to be increased and reissued.

- 14.3 Entire Agreement.** This Agreement, including all Exhibits attached hereto, constitutes the entire understanding of the parties and supersedes all previous representations, written or oral, with respect to the services specified herein. This Agreement may not be modified or amended except by a written document, signed by authorized representatives or each party.

- 14.5 Assignment:** Services covered by this Agreement shall not be assigned in whole or in part without the prior written consent of the CITY.
- 14.6 Amendments.** The Contract may be modified only through a written Contract Amendment executed by authorized persons for both parties. Changes to the Contract, including the addition of work or materials, the revision of payment terms, or the substitution of work or materials, directed by a person who is not specifically authorized by the City in writing or made unilaterally by the CONTRACTOR are violations of the Contract. Any such changes, including unauthorized written Contract Amendments shall be void and without effect, and the CONTRACTOR shall not be entitled to any claim under this Contract based on such changes.
- 14.7 Independent CONTRACTOR.** The CONTRACTOR under this Contract is an independent CONTRACTOR. Neither party to this Contract shall be deemed to be the employee or agent of the other party to the Contract.

No course of prior dealings between the parties and no usage of the trade shall supplement or explain any terms used in this document and no other understanding either oral or in writing shall be binding.

**14.9 Authority:** Each party hereby warrants and represents that it has full power and authority to enter into and perform this Agreement, and that the person signing on behalf of each has been properly authorized and empowered to enter this Agreement. Each party further acknowledges that it has read this Agreement, understands it, and agrees to be bound by it.

**1. DESCRIPTION**

Work under this agreement consists of compressed air routing and cleaning cracks in the existing bituminous pavement and applying a premixed asphalt-rubber sealant. The work does not include the patching of potholes or alligator cracks. CONTRACTOR shall provide any traffic control required to accomplish the work. The work shall be accomplished in accordance with the requirements of this scope of work. The City uses Polyflex Type 3.

CONTRACTOR shall provide sufficient work crews to complete the assigned work on schedule. CONTRACTOR's crews shall work approximately eight (8) hours per day, five (5) days per week, Monday through Friday, excluding official City holidays. Work shall be performed on CITY streets between the hours of 8:30 a.m. and 4:30 p.m. Any exception to the normal working hours must be approved by the Contract Administrator/designee. CONTRACTOR shall not pull off a CITY job to do other jobs.

CITY will provide the rubberized asphalt sealant, furnished in 50-pound blocks. Material will be picked up by CONTRACTOR at the Public Works Yard, 975 E Armstrong Way, as needed. CONTRACTOR shall be accountable for all material usage, which will be audited by the Contract Administrator/designee.

The asphalt-rubber mixture shall not be applied during wet weather or under conditions which will adversely affect the operations. The sealant shall not be placed in cracks that are wet. The sealant shall be placed at the material manufacturers recommended application temperature.

CONTRACTOR shall appoint a Supervisor to oversee the crew and coordinate required work with the Contract Administrator/designee. The Contract Administrator/designee shall be advised before 3:30 P.M. each day of the planned work location for the following day. The Supervisor shall advise the Contract Administrator/designee immediately of equipment breakdown or other delays affecting the progress of the work.

2. **LOCATION OF WORK**

CONTRACTOR shall be required to seal existing cracks on major, collector and local streets within the boundaries of the City of Chandler. The City will have an inspector assigned to this project to inspect work on a daily basis. The CITY AND CONTRACTOR shall agree upon a schedule of work to be completed prior to commencing work. Contract Administrator/designee will provide a detailed listing of the street locations to CONTRACTOR.

3. **ESTIMATED REQUIREMENTS**

It is estimated that asphalt-rubber sealant will be installed in approximately 2,100,000 linear feet of cracks. The CITY reserves the right to add or deduct quantities to this contract.

4. **SCHEDULE**

CONTRACTOR shall provide all necessary labor and equipment for cleaning cracks in the existing bituminous pavement and applying an asphalt-rubber sealant product supplied by city.

No work is to be scheduled on the streets during the time period of Christmas through New Year Holiday.

Should CONTRACTOR plan on stopping work before completion of this agreement, prior approval is required from the Contract Administrator/designee.

5. **EQUIPMENT**

The equipment used by CONTRACTOR in the application of the asphalt rubber material shall have a mixing system in the material vat in order to maintain a consistent, uniform, homogenous mixture throughout the crack sealing operation. The unit shall heat the asphalt rubber material by means of an indirect heat transfer median for adequate material temperature control. The equipment shall provide a continuous supply so that operations may proceed without delays. The material shall be applied under pressure with a hose and wand assembly. The equipment designated for use by CONTRACTOR shall be approved by the Contract Administrator/designee prior to commencing work.

6. **WEATHER**

The Contract Administrator/designee, together with the CONTRACTOR's Supervisor, shall determine if weather conditions are such as to adversely affect the operations, or whether or not the operations should cease.

7. **COMPRESSED AIR ROUTING, CLEANING OF CRACKS, and APPLYING SEALANT**

- A. CONTRACTOR shall seal all cracks having an average clear opening  $\frac{1}{4}$ " or greater. All cracks with an average clear opening of less than  $\frac{1}{4}$  inch shall not be sealed unless directed to do so by the Contract Administrator/designee. All cracks between asphalt and curb or gutter shall be sealed regardless of clear opening size unless directed by the Contract Administrator/designee. CONTRACTOR shall contact the Contract Administrator/designee for filling of cracks 2" or wider. The Contract Administrator/designee shall make final determination as to what work will be done under this agreement.

Immediately prior to applying the sealant, CONTRACTOR shall thoroughly clean cracks and remove any loose particles, grass, grass roots, weeds, dust and other deleterious substances by means of high velocity compressed air or other methods prior approved by the Contract Administrator/designee. The compressor used shall be capable of sustaining a minimum pressure of 90 psi. The crack cleaning equipment shall be capable of cleaning cracks to a minimum depth of  $\frac{1}{2}$ " and shall be capable of dust containment (typically by a vacuum apparatus) by filtering particulate matter 10 micrometers or less in diameter with no dust clouds visible to the naked eye as determined by the Contract Administrator/designee. The conventional method of openly blowing out cracks with compressed air with no dust containment shall not be an acceptable crack cleaning method used under this agreement.

Crack cleaning shall be inspected and approved by the Contract Administrator/designee prior to the application of crack sealant. The Contract Administrator/designee will be available twice per day to inspect and approve the sealing process, once in the morning and once in the afternoon.

- B. CONTRACTOR shall place sealant so as to completely fill the crack and form a lap of greater than 1" on each side. Immediately after the application, a rubber squeegee or other acceptable means shall be used to level the sealant flush with the existing pavement surface. After cooling, the sealant shall not shrink more than  $\frac{1}{4}$ " below the pavement surface.

Sealant shall be heated to between 325°F and 400°F (163°C and 204°C) for at least  $\frac{1}{2}$  hour prior to application. Sealant shall only be applied to clean, dry cracks that have been approved by the Contract Administrator/designee from the bottom up to the surface level. CONTRACTOR shall provide certificates on all temperature gauges. The dates of the certificates shall be within the previous three (3) month period.

- C. The sealant shall be intended to be placed entirely within the crack. Blotter material may be required to prevent asphalt-rubber bleed and/or pickup of sealant by vehicular traffic. CONTRACTOR shall install blotter material of a type acceptable to CITY and at the direction of the Contract Administrator/designee at no additional cost to the City. Typical blotter material shall be made up of sand/silica sand and cannot include powdered cement. Any blotter material must be pre-approved by the Contract Administrator/designee.

- D. CONTRACTOR shall clean all sidewalks and driveways on a daily basis within the work area to the satisfaction of the Contract Administrator/designee. Within two (2) days after the work has been completed as shown on the plans, the area shall be cleaned of any excess material, debris, etc. The Contract Administrator/designee may require additional cleaning to be done, at no additional cost to the CITY, if an unsafe condition exists or excessive complaints are received from local residents. CONTRACTOR shall clean the streets, gutters, sidewalks and driveways before the job is considered complete. Cleaning of the streets shall be by mechanical pick up sweeper. CONTRACTOR shall clean streets to the satisfaction of the Contract Administrator/designee. CONTRACTOR shall be responsible for the disposal of all debris.

- E. Contract Administrator/designee shall inspect all work daily for quality of workmanship, width of cracks filled, cleanliness of cracks and lapping. CONTRACTOR shall correct all unacceptable work, at no additional cost to the CITY, within five (5) working days after notification from the Contract Administrator/designee. CONTRACTOR shall not progress to a new street segment, residential area or parking lot until the unacceptable work is corrected to the satisfaction of the Contract Administrator/designee.
- F. While completing work, CONTRACTOR shall protect against damage to vehicles, people and any other property that may be in the work area. During and after the placement of sealant, CONTRACTOR shall protect any persons or animals that may come in contact with the hot material against any harm.

## 8. TRAFFIC CONTROL

- A. CONTRACTOR shall control all traffic through the work area in accordance with the requirements of the latest City of Chandler Traffic Barricade Manual. The CITY must approve the type of traffic control to be used.
- B. CONTRACTOR shall furnish all signs, cones, equipment and other traffic control device necessary for the control of traffic and costs for these devices shall be included in the price per lineal feet bid under this agreement.
- C. Traffic Control will be discussed and specific items reviewed with CONTRACTOR prior to commencing work.

## 9. ADDITIONAL REQUIREMENTS - NOTIFICATIONS

CONTRACTOR shall notify all businesses and residences abutting those streets where crack sealing will occur **48-hours** in advance of any work being completed. Notifications shall be via written message on a form approved by CITY. Notices shall be placed on, or attached to, the front door of each structure adjacent to the project. CONTRACTOR shall schedule work so that there are adjacent streets available for residents to park while work is being done in front of their homes.

## 10. MEASUREMENT

Pre-mixed asphalt-rubber sealant shall be measured by the number of linear feet of cracks sealed in the accepted work. CONTRACTOR shall measure and record all completed areas and shall provide this information to the Contract Administrator/designee on a weekly basis. This list shall include the following information for CITY use in spot checking quantities and determining accuracy for payment:

- Name of street on which work was completed;
- Street numbers, beginning and ending;
- Number of lineal feet of cracks sealed in the listed street.

## 11. BASIS OF PAYMENT

Payment shall be made at the agreed upon price per linear foot of crack sealed with premixed asphalt-rubber sealant. Price shall be full compensation for furnishing all preparation, mixing, and placing of this material as well as all labor, equipment tools, and incidentals including taxes, necessary to complete the work. Also included as incidental items are routing, cleaning of cracks, application of blotter material, traffic control, and notification to property owners as noted in the specifications.
