6. RECOMMENDATION: Staff recommends City Council award a Construction Contract to DNG Construction, LLC, for the Fire Station 2 Gate, Project No. F11405.401, in an amount not to exceed \$89,094.24.

7. BACKGROUND/DISCUSSION: This contract is for the construction services for automated driveway security gates and wrought iron fencing at Fire Station 2. The gates and fence will provide a secured location for staff, fire vehicles, and equipment. Currently the ingress and egress driveways are open to vehicle traffic. There have been several situations where vehicles coming off Alma School Road have driven through the apparatus bays. Staff has expressed concerns with their personal vehicles being left unattended during fire calls. All new stations that are built now require secured parking for Fire staff. A section of the parking lot will be left open for public parking and will allow for access to the front door.
