5. **SUBJECT:** Purchase of Bucket Truck

6. **RECOMMENDATION:** Staff recommends City Council approve the utilization of Arizona State Contract ADSPO14-063240, with Sanderson Ford, for the purchase of a bucket truck in the amount of \$125,819.43.

7. **BACKGROUND/DISCUSSION:** A bucket truck is a service truck with an aerial lift device mounted to it. The truck can carry tools, equipment, parts and staff to the work site and has a lifting device that can safely lift staff to a 41-foot working height. Transportation and Development's Traffic Engineering Division currently operates a 12 year old bucket truck (#03355) with 115,500 miles that the Fleet Advisory Committee has recommended be replaced. The committee considered the vehicle's current tasking, maintenance history, reliability, and projected cost to operate when determining the specifications for the truck.

8. **EVALUATION:** The State of Arizona competitively solicited and awarded a contract for a cab and chassis. Staff is recommending use of the State contract for the Cab and Chassis with an aerial bucket device added. The City has a current Intergovernmental Agreement with the State of Arizona allowing for the cooperative use of the State's contracts.

Staff recommends cooperative use of this contract because it is an expeditious method to replace the current bucket truck, which is inoperable. Additionally, staff was able to compare the price to a recent City of Chandler bid and another cooperative contract for the same equipment and finds the price to be competitive.
