5. SUBJECT: Purchase of Asphalt Rubber Crack Sealant Material

6. RECOMMENDATION: Staff recommends City Council approve the utilization of Arizona State Procurement Office Contract No. ADSPO13-035060 for the purchase of asphalt rubber crack sealant material from CrafcO, Inc., in an amount not to exceed \$200,000.

7. BACKGROUND/DISCUSSION: The Streets Division is in need of approximately 446,600 pounds of asphalt rubber crack sealant material for the City's upcoming crack sealing and maintenance projects. The Poly Flex III crack seal material manufactured by CrafcO, Inc., a Chandler-based company, is an approved material for crack sealing work on City streets and has been used for more than 20 years. Poly Flex III crack seal material is specially formulated to withstand the high temperatures of the Arizona heat. The product does not track on the streets and does not pick up or get carried into driveways, therefore reducing the amount of complaints the City receives when this work is performed. Poly Flex III crack seal material is a very stable and durable product that is widely used in Arizona because of its flexibility and resiliency. The City has been using a cooperative contract available to us through the Arizona State Procurement Office, which was awarded to CrafcO, Inc.

Based on our history of utilizing this product, and the above noted benefits, the Street Division recommends continued use of this material.

8. EVALUATION PROCESS: In May of 2012, the Arizona State Procurement Office competitively solicited and awarded a cooperative contract to CrafcO, Inc., for the purchase of asphalt rubber crack sealant materials. One response was received from CrafcO, Inc., our current provider. The delivered price for this contract period is \$0.4478 per pound. Based upon the size of the Arizona State Procurement Office contract, we have elected to use their cooperative contract pricing.

The Arizona State Procurement Office contract pricing is valid through June 5, 2016, at the same pricing, terms and conditions.
