5. SUBJECT: Purchase of Fiber Optic Network Cabling Services

6. RECOMMENDATION: Staff recommends City Council approve the utilization of AZ State Contract No. ADSPO12-033468, with Premise One, Inc., for fiber optic network cabling services, in the amount of \$77,532.

7. BACKGROUND/DISCUSSION: This request is in conjunction with the construction contract for the outside fiber optic cabling being done as part of the Enhanced Communications for Remote Sites project. The construction contract will provide all of the cabling work being done outside of the facilities. Cabling contractor services are required for the interior fiber optic cable work at the remote City of Chandler facilities included in the project. These locations include: Fire Station 2, Fire Station 3, Fire Station 4, Fire Station 5, Fire Station 6, Fire Station 7, Fire Station 8, Fire Station 10, Price-McCullough House, Snedigar Sports Complex, Arrowhead Pool, Hamilton Aquatic Center, Folley Pool, and Nozomi Aquatic Center. The work to be performed entails bringing fiber optic cabling into the interior space of each site from the vault located on the exterior of the facility, installing cabling management, and terminating the installed cabling. Premise One and the City of Chandler have had a good working relationship for several years and they have completed several cabling projects with great success.

8. EVALUATION: The State of Arizona competitively solicited and awarded a contract for cabling communications systems to Premise One, Inc. The City has a current Intergovernmental Agreement with the State allowing for the cooperative use of their contracts.

Staff recommends cooperative use of this contract because they are currently the cabling firm that has done work on several projects with IT and their services and end product meet or exceed our expectations. Cabling from this firm requires very little rework once job is completed.
