5. SUBJECT: Amendment No. 1 to Agreement No. ST5-745-3500 for slurry seal materials and installation

6. RECOMMENDATION: Staff recommends City Council approve Amendment No. 1 to Agreement No. ST5-745-3500 for slurry seal materials and installation with Southwest Slurry Seal, Inc., in an amount not to exceed \$1,200,000, for the term of one (1) year, March 13, 2016, through March 12, 2017.

7. BACKGROUND/DISCUSSION: Slurry seal materials are sealants that are applied to City streets to preserve and lengthen the life of the asphalt. Due to the large investment that the City has in the transportation system, pavement sealants are used to protect this investment. The contractor applies this polymer-modified asphalt product which contains small aggregates. It adds a new riding surface to the pavement and will provide added years to the pavement life. These sealants are used throughout the valley. The contractor is responsible for all traffic control. Informational door hangers will be used to notify citizens and businesses when work is scheduled. The City will seal approximately seventy-six lane miles of arterials, collectors, and residential streets as shown on the attached exhibit. City streets will not be closed as only half a street will be sealed at a time.

8. EVALUATION PROCESS: On March 12, 2015, City Council approved an agreement for slurry seal materials and installation with Southwest Slurry Seal, Inc., with options to extend for up to four (4) additional one-year periods. The vendor has agreed to extend at the same terms, conditions and pricing.

Staff recommends extension of this agreement for the term of March 13, 2016, through March 12, 2017. This is the first extension of the agreement.
