

Report Water Waste

Excess water in our streets is a traffic/pedestrian hazard as well as destructive to the asphalt and can affect property conditions. We ask that you do your part to help conserve this precious resource and make conservation a part of your daily lifestyle.

There could be several reasons for water running off properties and into the street. Irrigation valves can stick open or people may forget to turn off hoses. There could also be issues with breaks in pipes or irrigation tubing. Most water wasters simply don't realize there is a problem. By reporting water waste, you're actually helping to educate your neighbors and the community about water conservation.

1. When water waste is observed running into the street, please provide the following information about the type of water waste. The details you provide will help the water conservation specialist identify the issues during a site visit. We must be able to document the specific source of water waste.

- | | | |
|--|---|---|
| <input type="checkbox"/> Street flooding | <input type="checkbox"/> Seepage from ground | <input type="checkbox"/> Hose without shutoff |
| <input type="checkbox"/> Overwatering | <input type="checkbox"/> Seepage from meter box | <input type="checkbox"/> Pool backwash |
| <input type="checkbox"/> Broken Sprinklers | <input type="checkbox"/> Misdirected sprinklers | |

2. Amount of flow.

- | | | | |
|---------------------------------------|-----------------------------------|-------------------------------------|--------------------------------|
| <input type="checkbox"/> Intermittent | <input type="checkbox"/> Frequent | <input type="checkbox"/> Continuous | <input type="checkbox"/> Daily |
|---------------------------------------|-----------------------------------|-------------------------------------|--------------------------------|

3. Time of day.

_____ AM _____ PM

4. Type of property.

- | | |
|--------------------------------------|---------------------------------|
| <input type="checkbox"/> House | <input type="checkbox"/> Median |
| <input type="checkbox"/> Multifamily | <input type="checkbox"/> Park |
| <input type="checkbox"/> Street | <input type="checkbox"/> School |

5. Address of problem. (e.g. 1234 Main Street)

6. Cross streets.

Contact the Water Conservation Office at conserve@chandleraz.gov or call 480-782-3583. If it is an ongoing problem, please indicate this and the frequency of the problem.

The Water Conservation Office will contact the responsible party within a few days by phone, mail or in person to provide proper watering information, leak tips and a friendly reminder about rules regarding water waste. Most people cheerfully correct the issue reported and the process ends there.

Repeated water waste issues at the same location can be a code violation that could result in a court appearance and possible fine.

Thank you for caring about conserving water for our future.

Be sure to visit the City of Chandler Water Conservation web pages for free landscape workshops, landscaping tips, rebates, frequently asked questions and more.
