5. **SUBJECT:** Approve the sole source purchase of a Meta Morpho Automated Fingerprint Identification System (AFIS) Workstation from Sagem Morpho in the amount of \$52,697.17.

6. **RECOMMENDATION:** Recommend approval of the sole source purchase of a Meta Morpho Automated Fingerprint Identification System (AFIS) Workstation from Sagem Morpho in the amount of \$52,697.17.

7. **HISTORICAL BACKGROUND/DISCUSSION:** The Chandler Police Department's (CPD) Forensic Services Section analyzes all information obtained at either of the Livescan locations, all 10 print cards and all latent fingerprints recovered from crime scenes prior to being uploaded to the state Automated Fingerprint Identification System (AFIS). The State is upgrading the system to allow for greater search capabilities (palms and writer's edge). Once the State goes online with the new system, our current AFIS workstation will be obsolete. Therefore, to remain online with the state AFIS, the Laboratory is requesting sole source approval to purchase a Meta Morpho Automated Fingerprint Identification System (AFIS) workstation from Sagem Morpho.

8. **EVALUATION PROCESS:** Sagem Morpho is the sole manufacturer, distributor and seller of this AFIS system. The pricing offered is based on the current state contract SCC060002-A1-1.

9. **FINANCIAL IMPLICATIONS:** Funds for this purchase are available in General Fund, Police Forensic Services, Other Equipment, account number 101-2021-6320.

10. **PROPOSED MOTION:** Move to approve the sole source purchase of an upgraded AFIS system from Sagem Morpho in the amount of \$52,697.17.

JUSTIFICATION FOR SOLE SOURCE: (Describe the unique nature of the product or service, what efforts were made to locate other sources, any market testing and research results, any other information that may help evaluate the request for sole source. Attach documents as appropriate to this request.)

All information obtained at either of the Livescan locations, all 10 print cards and any latent fingerprint recovered from a crime scene must first go through the lab prior to being uploaded to the state Automated Fingerprint Identification System (AFIS). The state has upgraded the system to allow for greater search capabilities (palms and writer's edge). With these new search capabilities, we will be able to reanalyze latent evidence from cold cases. Once the State goes online with the new system, the current AFIS workstation will be obsolete. The vendor, Sagem Morpho can provide the needed product at a conservative price including the necessary attachments, service, installation and maintenance.
