TO: MAYOR & COUNCIL

3. Date Prepared: June 12, 2009

THROUGH: CITY MANAGER

4. Requesting Department: Community Services

5. SUBJECT: Award a construction contract to Salt River Project (SRP) for installation of three canal access ramps for the Paseo Trail System, Project No. PR0711-301, in an amount not to exceed \$75,000.

6. RECOMMENDATION: Staff recommends that Council award a construction contract to SRP for installation of three canal access ramps for the Paseo Trail System, Project No. PR0711-301, in an amount not to exceed \$75,000.

7. BACKGROUND/DISCUSSION: As part of the American Recovery and Reinvestment Act of 2009 ADOT has allocated \$750,000 for the completion of the Paseo Trail. In addition to paving, lighting, seat walls and signage that will complete the trail from Galveston Street south to Pecos Road, three prefabricated bridge structures will be installed at various locations to provide pedestrian, equestrian and bicycle access across the Consolidated Canal. The installation of those bridges creates an impediment to the canal maintenance performed by SRP. That requires the ability of backhoes and dump trucks to work in the bottom of the canal during dry-up periods. As a result it is necessary to construct three canal access ramps to facilitate the necessary maintenance activities. The ramps will be maintained by SRP once they are installed.

Since SRP has prior rights, the City is required to reimburse them for associated costs to create access for the performance of proper maintenance.

For the Paseo Trail project to proceed as funded through the American Recovery and Reinvestment Act of 2009, approval of this contract with SRP is necessary.

8. EVALUATION: Salt River Project will install three canal access ramps and provide inspection services.
