

Renewable Energy Opportunities

SRP Earthwise Energy

- Purchase your energy from renewable sources such as wind, solar, geothermal, low-impact hydroelectricity or energy from landfills.
- The program is available in \$3 increments. Depending on the level you choose, \$3, \$6, \$9, or \$12 will be added to your monthly electric bill.
- For more information, visit:

APS Green Choice

- Purchase your energy from renewable sources such as wind, geothermal or solar.
- For wind and geothermal energy, the program costs \$0.01/ kWh. The total amount contributed to renewable sources is flexible. You can contribute as little as \$1.00 per month to renewable sources. You can also assure that as much as 100% of your energy comes from renewable sources.
- For solar energy, the program costs \$0.166/ kWh. If you choose this option, you can choose to utilize solar resources for either 50% or 100% of your electricity usage.
