Features & Amenities

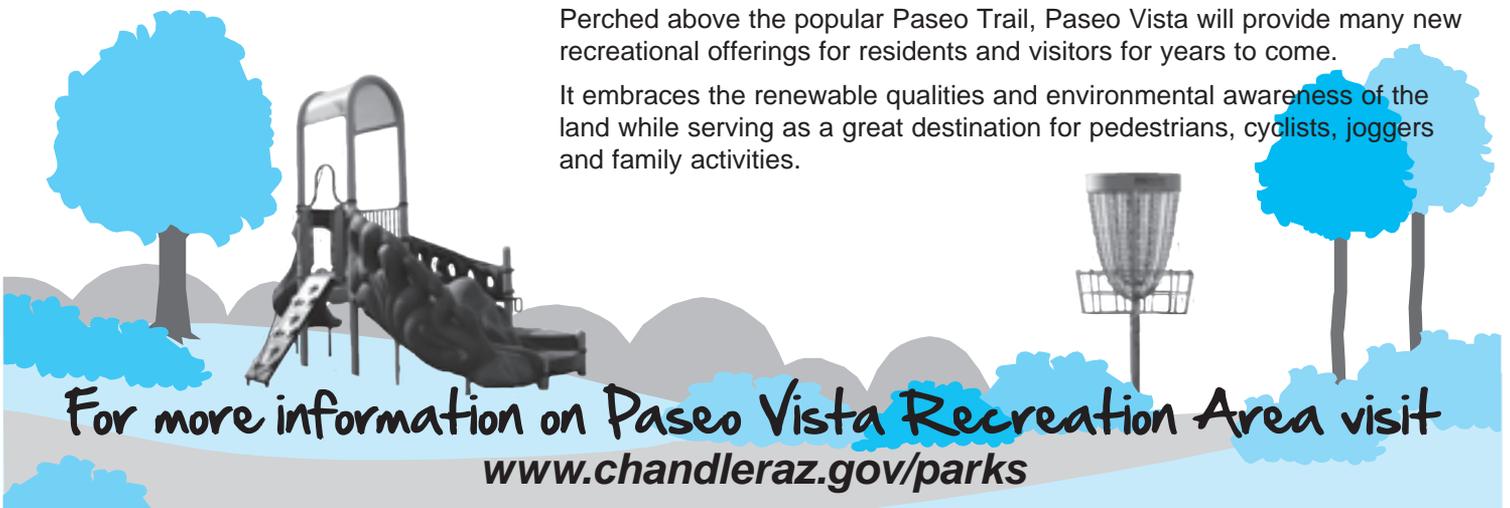

- 64 acres of elevated activity space
- 360-degree views of Chandler
- Archery range
- Disc golf course
- Bark park
- Walking trails
- Children's play space
- Picnic ramadas

The new Paseo Vista Recreation Area is now open at the northwest corner of McQueen and Ocotillo roads! Start the New Year with a visit to this exciting 64-acre park with spectacular 360-degree views of the entire city. Located on top of a former landfill, Paseo Vista is a special-use park that offers unique activities such as an archery range, 18-hole disc golf course, walking trails, the city's fourth bark park, children's play space, picnic ramadas and more.

Paseo Vista is the Valley's first major municipal park to be constructed on a former landfill, which was closed in 2005. It was capped with a geosynthetic clay liner and received more than 478,000 cubic yards of soil that serves as a cushion between the landfill and the park's amenities. Many Mesquite trees were salvaged from the Nozomi Park site to enhance the landscape, and building materials from other sites were reused rather than sent to another landfill. Salvaged tires form retaining walls and the safety backstop to the archery range.

Perched above the popular Paseo Trail, Paseo Vista will provide many new recreational offerings for residents and visitors for years to come.

It embraces the renewable qualities and environmental awareness of the land while serving as a great destination for pedestrians, cyclists, joggers and family activities.
