

# DOWNTOWN WATER-WASTEWATER INFRASTRUCTURE IMPROVEMENTS PROJECT NO. WW1506.403 CONSTRUCTION INFORMATION

The City of Chandler is beginning the next phase of water and wastewater infrastructure improvements to meet the needs of the residents and businesses in and near Downtown Chandler. In some cases, APS will conduct work to relocate facilities to accommodate the planned improvements. A **tentative** overall schedule is provided in the diagram below.

- Scheduled to **begin August 1<sup>st</sup>**, crews will install sewer and water pipeline in Boston Street between Oregon and California, with an estimated 3-4 weeks to complete.
- Tentatively scheduled to **begin late August**, sewer and water connections will be installed in the north end of Essex Street.
- Scheduled to begin in **September**, water and sewer pipeline will be installed in the Oregon Street “alley” north of Boston, taking about 6-8 weeks to complete.
- Following APS work this year, scheduled to begin **April 2017**, crews will install waterline in the “alley” south of Boston Street.
- APS work will be taking place as indicated in the diagram, ahead of and to accommodate the water or sewer pipeline work.

During this work, roads or “alleys” scheduled for work may be closed or restricted in the interest of safety for travelers, pedestrians and construction crews, with detour signage in place. **You will be notified in advance of any planned disruption to your water or sewer service. Access will be maintained to businesses and residences.**

Thank you for your patience and [please continue to patronize Downtown Chandler businesses during this work!!](#)
