**MEMO:** Transportation and Development – PZ Memo No. 11-010

**DATE:** JANUARY 14, 2011

**TO:** PLANNING AND ZONING COMMISSION

**THRU:** RJ ZEDER, TRANSPORTATION & DEVELOPMENT DIRECTOR *RJZ*

**FROM:** JEFF KURTZ, PLANNING ADMINISTRATOR *JK*

**SUBJECT:** CASE ZCA10-0007, CITY OF CHANDLER / MEDICAL MARIJUANA

**Request:** City initiative to amend Chapter 35 (Zoning Code) of the Chandler City Code, by amending Sections 35-200, 35-305 and 35-2100 by establishing definitions and Use Permit requirements relating to Medical Marijuana Facilities and Cultivation Sites and Infusion Food Establishments

### **BACKGROUND**

A voter initiative (proposition) established a governing process for the dispensing of marijuana for medical purposes as defined by the initiative and administered by the State Department of Health Services. The proposition did not preempt a jurisdiction's authority to enact reasonable zoning regulations that limit the use of land for medical marijuana dispensaries.

The Mayor and Council on December 6, 2010 directed staff to initiate a Zoning Code Amendment addressing local zoning regulations for Medical Marijuana dispensing. The Council's Transportation and Development Subcommittee met on December 16, 2010 to provide general policy direction to staff upon which this proposed ordinance is based. This item is being forwarded to Planning Commission for their recommendation to amend the Zoning Code establishing definitions and Use Permit requirements relating to Medical Marijuana Facilities, Cultivation Sites and Infusion Food Establishments. The proposed ordinance establishes the procedures by which these uses may be considered to be located in Chandler.

The proposed ordinance, in the form of a Zoning Code Amendment, establishes several items. First, it creates definitions for *Edible Food Product, Infusion or Infuse, Infusion Food Establishment, Medical Marijuana, Medical Marijuana Dispensary, Medical Marijuana Facility,*

*Medical Marijuana Cultivation Site, and Related Supplies.* These terms are used within the proposed ordinance and will be a definition with the Zoning Code. Secondly, the proposed ordinance establishes that Medical Marijuana Facilities (retail dispensing) would be allowed only in C-2 and C-3 Zoning Districts or in PAD Zoning Districts where C-2 and C-3 uses are allowed and only upon obtaining a Use Permit. The proposed ordinance establishes that Medical Marijuana Cultivation sites (growing operations) or Infusion Food Establishments (combining medical marijuana into edible food products) would be allowed only in I-1 or I-2 Zoning Districts or in PAD Zoning Districts where I-1 and I-2 uses are allowed and only upon obtaining a Use Permit. Thirdly, the proposed ordinance establishes the requirements of an application process specifying certain information needed to evaluate a Use Permit application such as a security plan and other criteria that would be a requirement of the use. Fourth, the proposed ordinance establishes separation requirements from protected uses (another Medical Marijuana Facility or Cultivation Sites or Infusion Food Establishment, Day Care Center, Public or Private Park, Place of Worship, School, Residential Zoning District Boundary, Public Library, Public or Private Hospital) that exceed that separation required by the state law. Fifth, the proposed ordinance establishes that a Use Permit would be valid for one-year, is non-transferable to another location, and creates renewal procedures.

The proposed ordinance section that affects the facility locations to the greatest degree are the separation requirements and the inclusion of which particular uses should be considered as protected uses requiring separation from dispensaries. Due to the ordinance adoption process requirements, the Subcommittee directed staff to include a quarter-mile spacing (1320 feet) from protected uses in order to be consistent unless it was determined that the separation distance would eliminate all locations within the City. Staff was to undertake a map analysis studying the results of quarter-mile spacing as applied to the city before making a final determination of which uses should be included as a protected use and how the separation spacing would impact available locations. A series of general and detailed maps are attached to this memo. The maps are based upon the best available data; however, any Use Permit application location would be further evaluated on current and specific separation requirements existing at the time the Use Permit is considered.

It is expected that the Department of Health Services will have completed their rule-making process and begin to issue dispensary licenses by the end of March 2011 or soon thereafter. Thus, if Chandler were to enact further reasonable zoning regulations it is imperative that the ordinance adoption process be completed prior to the end of March. In order to maintain the ordinance adoption process on a regular meeting schedule, Commission is requested to review the proposed ordinance at their January 19<sup>th</sup> meeting and forward a recommendation to Mayor and Council who will consider the proposed ordinance at their February 10<sup>th</sup> meeting.

### **RECOMMENDATION**

Staff has reviewed the separation requirements discussed by the Subcommittee and prepared study maps that analyze the impact upon possible locations within the city. The study maps point out that the separation requirements will result in providing eligible locations within the city where Use Permits could be considered, however, when including the separation requirement of 1320 feet from residential districts the locations are limited. Based upon Chandler's land use pattern, commercially zoned property is almost always near or adjacent to residentially zoned property. Staff would recommend that the final ordinance delete the separation requirement between dispensaries and residential zoning district boundaries. A map that demonstrates how removing the residential separation requirement will affect available sites is also attached. Secondly, the list of protected uses includes Hospitals, Public or Private, and the applicable separation requirement. Inherently, it would seem that separating Medical Marijuana facilities from hospitals where associated medical treatment is received would be inconsistent with the purpose of the use. Staff would recommend that Hospitals be deleted from the protected use list. Lastly, the list of protected uses includes Public or Private Parks and the applicable separation requirement. A Private Park is an ambiguous term that could be construed in many forms such as a subdivision's private greenbelt, more clearly a private park, or a smaller tract of landscaping adjacent to a street. Staff would recommend that that Private Parks be deleted from the protected use list yet still include Public Parks which are easily and clearly identifiable as a protected use.

### **PROPOSED MOTION**

Motion to recommend approval of Zoning Code Amendment ZCA10-0007 CITY OF CHANDLER/MEDICAL MARIJUANA amending Chapter 35 (Zoning Code) of the Chandler City Code, by amending Sections 35-200, 35-305 and 35-2100 by establishing definitions and Use Permit requirements relating to Medical Marijuana Facilities and Cultivation Sites and Infusion Food Establishments, as recommended by Staff.
