

**WEB POSTING OF NEW OR MODIFIED FEES
DATED FEBRUARY 25, 2022**

The City of Chandler is considering Utility Rate changes as well as new and/or modified fees changes. The fee/rate changes are proposed for the Public Works & Utilities Department, Water, Wastewater, Reclaimed Water, and Solid Waste divisions.

The Public Works & Utilities Department proposed Utility rate changes are detailed below and on our [ProposedUtilityRate](#) website. These rate changes utilize the Cost of Service Study recently completed and therefore the rates vary by customer classification. The Solid Waste Division is proposing changes to the monthly Solid Waste Disposal fee, as well as policy changes to how residents utilize Bulk Material Collection services, the Recycling Solid Waste Collection Center, and charges to customers with Alley Collection services. These changes to rates and fees are proposed to be effective July 1, 2022.

The details of all rate and fee changes can be found on the [ProposedUtilityRates](#) website, and will be considered at the Regular Meeting of the Chandler City Council being held in the Council Chambers, 88 E. Chicago Street, on Thursday, April 28, 2022, at 6:00 p.m. We have also provided a link to the Solid Waste Division changes in the [Summary of Proposed New or Modified Fees](#) schedule. The proposed rates and fees are being posted 60 days prior to consideration at the public meeting, to allow time for citizen review and comment.
