

CHANDLER: BUSINESS LOCATION TEAM

Your Guide to Navigating the Tenant Improvement Process: The mission of the City of Chandler's Business Location Team (BLT) is to help office, industrial and retail businesses navigate the tenant improvement permit process. You will be guided by a knowledgeable team of City staff from the Economic Development, Development Services, Fire, and Planning Divisions.

The Meeting: The small team of City experts will walk the site with you and provide immediate feedback on building code, fire code, and zoning-related questions. It remains the role of your design team and contractor to design the plans for permitting and complete construction before moving into the building.

This team has been successful in saving Chandler businesses time and money. It is always recommended for companies to take advantage of this free program before signing a lease or purchasing a building.

Company Testimonials

"When we were looking to consolidate our Arizona operations from four buildings into one larger existing building, the City of Chandler was able to aid us through an on-site Business Location Team meeting. City Staff walked through the building and actively addressed tenant improvement questions related to building code, fire code, and zoning items. This allowed us to save time and money throughout the build-out process."

State Seal Company
Jason Darmel, Vice President

"The City of Chandler works diligently to help businesses of all sizes navigate the tenant improvement permitting process. Through the City's Business Location Team program, we are able to offer our clients a business-friendly resource that allows them to make cost-efficient decisions as they look to expand and/or relocate within Chandler's city limits."

CBRE
Jackie Orcutt, Senior Vice President
