

Utility Work Preconstruction Meeting

Notify the inspector of ALL emergencies and concerns immediately.

Must have onsite at all times

- Permit, Plans, 811 Ticket & TCP (if required)
- TCP's are reviewed and approved by Traffic Engineering 480-782-3453 tcp@chandleraz.gov.
- **All** work is to be completed per approved plans, unless a change is approved by the City Inspector. Facilities not placed in accordance with the approved plans will be removed and placed per the plans.

Notification

- Submit Pre-Construction meetings and Inspection notifications and requests electronically a minimum of 24 hours in advance.
- The City Inspector **must** be notified of changes to the notification.

Review of the Job

- Verification of utility survey. The proposed running line is to be marked in white in the field where the actual work is to be done.
- Designate conflict locations to the inspector. Running line changes **must** be approved by the City Inspector prior to deviating from the plans.
- Pothole a two (2) foot circumference around the utility per State Law ARS 40-360.2(4). The existing utility **must** be found.
- Bore separation to be maintained from other utilities per MAG section 608.
- Construction bore profile must be approved by the City inspector **prior** to starting the bore.
- Depth of cover for telecommunications facilities (48" minimum on Arterials and Collectors and 36" minimum on all others per City of Chandler supplement to MAG section 360).

Restoration

- Must be done to like or better conditions.
- Must be completed within 7 business days.
 - Details or Specs found at City of Chandler website:
(<https://www.chandleraz.gov/government/departments/development-services/telecommunications-and-utility-franchise>)
- Spoil piles are to be hauled off and disposed of by the contractor and not spread or back-dragged in the work area.
- All **affected** ramps will be brought up to current City standards.
- A new notification will be submitted prior to restoration work (restoration work in the “type of work being done” box).
- Striping restoration may be required at the discretion of the City inspector.
- A copy of concrete/slurry/asphalt tickets will be turned in to the inspector at time of restoration. **Mixes must be pre-approved.**
- The one year MAG warranty period for concrete and pavement restoration does not begin until a (499) Civil Final Inspection is approved by the City inspector.

Work Schedule

- Weekends and nights will require an overtime slip and an approval letter/email from the utility company (permit holder) on their company letterhead or from their company email address emailed to tuf@chandleraz.gov and approved by the City a minimum of 2 days in advance.

***Note: These are not all of the regulations for the City of Chandler. Call the inspector anytime questions or a need for more information arises.**
