The Chandler Police Department (CPD) is committed to being a world-class leader in law enforcement. CPD employs approximately 350 sworn officers and nearly 200 civilians. There are three precincts to meet the community's needs: Main Station, Desert Breeze and Chandler Heights.

Since 1996, CPD has been accredited by the Commission on Accreditation for Law Enforcement Agencies (CALEA). Accreditation represents the best in law enforcement in North America and is awarded upon demonstration of voluntary commitment to living up to CALEA standards. Agencies are reassessed every four years and CPD most recently achieved re-accreditation in 2021.

The City of Chandler is recognized as one of the safest cities in the United States, and CPD continues to work to drive down crime in our community. In 2024, the crime rate for Part I crimes (those considered to be most serious) was near a 30-year low in Chandler.

The Chandler Police Department offers several free programs to the local business community to help combat crime. These include Business Security Checks, Robbery Prevention, Trespass Enforcement, Dynamic Emergency Preparation, and Crime Prevention Through Environmental Design (CPTED).

# Public Safety

Chandler Fire Department (CFD) is an all-hazard response agency that maintains 11 fire stations with more than 200 sworn firefighters. All station personnel are certified emergency medical technicians and most are paramedics.

Since 1999, the Chandler Fire Department has been accredited by the Commission on Fire Accreditation International. This accreditation is a prestigious award granted to fire service agencies that successfully complete a rigorous peer and self-assessment. Only 13 other departments in the world had been accredited when CFD first achieved this designation.

CFD has received a Class 1 rating from the Insurance Services Organization (ISO). Class 1 represents superior fire suppression capabilities, with less than one percent of fire departments nationwide holding a top ISO Class 1 Rating. Most U.S. insurers of homes and business properties use ISO's ratings in calculating premiums. In general, the price of fire insurance in a community with a good rating is substantially lower than in a community with a poor rating.

Several inspection programs help local businesses maintain a safe work environment including annual inspection, HazMat inspection, new business inspection and self-inspection for qualified small businesses.
