Subject: Fiscal Year End (FYE) 2024-25 Fourth Quarter Financial Report

Attached is the FYE 2024-25 Fourth Quarter Financial Report, summarizing budget to actual performance of General Fund operating revenue and expenditures and additional summaries and analysis of Enterprise, System Development Fees, Highway User Revenue, and Grant funds. The FYE Quarterly report is typically released in August/September of each year due to the extended fiscal year end accounting process, which ensures all revenues and expenditures are thoroughly reviewed and properly reflected.

The analysis included in this report provides the year-end details of FYE 2024-25 by reflecting budget to actual compared to historical trends and the prior year. These historical comparisons are based on actual results compared to budget over the last four years (FY 2020-21 to FY 2023-24), and an explanation has been provided in those areas where there are significant deviations from the historical trend or the prior year's results.

When reviewing revenue trends, all General Fund revenue performance indicators are showing as positive with the exception of Franchise Fees. The General Fund FYE reflected overall revenue growth of 6.6% above adopted budget with 106.6% of budgeted revenues received compared to a 116.1% historical average received.

Overall, General Fund revenue, led by continuing Sales Tax collections, is performing well due to slightly higher local consumer spending with related inflation, but with a slower stream of development activity. The expansion of Intel continued to slow during the year, which shows in certain revenues having planned reductions from the prior year. It is anticipated that once the development is completed, revenues will stabilize in these categories, classifying any remaining additional revenue increases as one-time.

During the preparation of the FY 2025-26 Budget, projected FY 2024-25 year-end revenues were updated based on actual collections reflected in this report from January 2025 and other information available at that time. This allowed for the estimating of the fiscal year end General Fund balance used to calculate available one-time funds for use in the FY 2025-26 budget. The final net impact of the additional one-time funds, (i.e. revenues, expenditures and carryforwards) is being calculated in the new year.

Additionally, General Fund expenditures ended at 93.5% of budget at FYE compared to 91.9% for the prior fiscal year.

Should you have additional questions regarding this information, please contact me at x2256 or Dawn Lang at x2255.

PERFORMANCE INDICATORS

(At year-end, revenues performance indicators default to positive when 100% or more of budget is collected and expenditures performance indicators default to positive when total spending is less than adjusted budget)

- * **Positive** = Rev: Variance is above or <2% below historical trend. Exp: Variance <= 2% compared to historical trend.
Warning = Rev: Variance of 2 - 5% below historical trends. Exp: Variance of 2 - 5% above historical trends.
Negative = Rev: Variance of > 5% below historical trends. Exp: Variance > 5% above historical trend.

THE QUARTERLY FINANCIAL REPORT

Report Objectives

- * Provide historical comparisons to identify trends or deviations from trends.
- * Develop performance benchmarks to measure positive and negative results.
- * Create an executive level report to highlight potential issues or concerns.

What is Included in the Report

The report emphasizes General Fund, with analysis of its revenue and each category of revenue, and the expenditures by department. Also included is a summary and analysis of Enterprise Funds, System Development Fee and Impact Fee Funds, the Highway User Tax Fund, and Grants.

How to Read the Report

- * Page 1 serves as a table of contents and quick view of performance issues.
- * The benchmarks are Positive (navy colored), Warning (grey colored), and Negative (maroon colored), providing an initial indicator to determine if the category needs to be monitored closely in the upcoming period or if it is deviating from trends.
- * Performance indicators for General Fund *revenues* are comparing the percent of year-to-date actuals collected to total budget AND the budget prorated based on the historical trend (last four years) of average actual year-to-date collections to budget.
- * Performance indicators for General Fund *expenditures* are based on whether they are within budget for the percent of year-to-date actuals expended plus encumbrances compared to the total budgeted expenditures.
- * Performance indicators for Enterprise Funds focus on the relationship between Operating Revenues and Operating Expenses (including debt service and indirect cost allocation) and the percentage of budget received/expended.

ECONOMIC INDICATORS

Gross Domestic Product (GDP)

Real gross domestic product - the output of goods and services produced by labor and property located in the US. Reflects spending for households, business, government, and trade.

The change to the GDP is an indicator of the general direction of the economy. Slow or negative growth will likely mean lower revenues for the City.

Third Quarter 2024 (third estimate)	3.1%
Fourth Quarter 2024	2.4%
First Quarter 2025	-0.5%
Second Quarter 2025 (advance estimate)	3.0%

Interest Rates

This table reflects the four most recent changes to the Federal Funds Rate by the Federal Reserve Board.

Lowering the Federal Funds Rate is a way for the Federal Reserve Board to make it less expensive for banks to borrow money for loans and investments and (in theory) pumping additional dollars into the economy.

July 27, 2023	5.25%-5.50%
September 19, 2024	4.75%-5.00%
November 8, 2024	4.50%-4.75%

Unemployment

	National	State of Arizona	Phoenix Metro Area*
Mar-25	4.2%	4.0%	3.6%
Apr-25	3.9%	3.5%	3.1%
May-25	4.0%	4.1%	3.7%
Jun-25	4.4%	4.5%	4.0%

High unemployment rates typically result in a reduced demand for goods and services.

City Investment Portfolio

The City splits its investment portfolio between two investment firms with a different mix of holdings at each firm to reduce risk. Current Earning Benchmarks are as follows:

Allspring benchmark is ICE BofA 0-3 year U.S. Treasury Index

PFM's benchmark is ICE BofAML 1-5 year U.S. Treasury Index

Rate of Return is net of fees and includes interest earnings as well as both realized and unrealized gains/(losses). Rate of Return is typically negative in a rising rate environment.

Building Permits

Single-family building permits are an indicator of the general economy. Higher numbers of permits indicate an active construction market and resultant home sales. Fewer building permits generally equates to less new construction, and permit fees and construction sales tax revenues.

Chandler's quarterly average for single family building permits is 70.25 for FY 2023-24, up from the 14.5 average permits per quarter in FY 2022-23. The average for FY 2024-25 is 42.5.

Positive

General Fund revenue collections for FY 2024-25 were \$24.5M (6.6%) above the adopted budget and \$8.9M (2.2%) less than actual collections for FY 2023-24.

Overall, General Fund revenue increases are led by higher collection of local sales taxes, although this increase will be slowing as the residential rental tax elimination, which began in January 2025, is now reflected. These categories performed well due to level local consumer spending including related inflation, and development activity (although slowing in residential housing) in Chandler. The continued \$20B expansion of Intel, the largest development during this time period, continues to affect revenues in various categories. As this project winds down, we anticipate reductions in several categories. Once the development is complete, revenues will stabilize, classifying much of this additional revenue as one-time. The performance indicator is positive as actual overall collections exceeded the amount budgeted at fiscal year-end.

The following charts provide more detail regarding the various sources of General Fund revenues and provide more detail on the performance indicators.

Overall General Fund Revenues by Category FY 2024-25

Revenue Categories	FY 25 Adopted Budget	FY 25 Actual Revenue	% of Budget Rec'd to Date

Total	\$ 368,233,801	\$ 392,686,964	106.6%

Positive

This chart summarizes General Fund revenue collections by revenue category for FY 2024-25. The graph helps us visualize what percentage each revenue category is to the total General Fund. The percentage spread of revenue sources are relatively consistent over the years with local sales taxes and State Shared Sales Tax Revenues being the largest General Fund revenue sources. The next several pages provide an analysis of each revenue category except Indirect Cost Allocation (payments by the Water, Wastewater, Reclaimed Water, Solid Waste, and Airport Enterprise Funds to the General Fund for city services provided for their operations). The performance indicator is positive as actual collections came in higher than budget.

Positive

Figures above **include** General Fund local sales tax collections and the related revenues of license fees, audit assessments, penalties, and interest. Sales tax collections for FY 2024-25 were \$7.1M (3.6%) above adopted budget and \$5.8M (2.7%) less than FY 2023-24 actual collections which was anticipated with the reduction in the residential rental classification. The performance indicator is positive as actual collections exceeded the amount budgeted at fiscal year-end.

4 Years Actual Sales Tax by Category
(in millions)

The above figures reflect General Fund sales tax collections by category and **exclude** the related revenues of license fees, audit assessments, penalties, and interest. Sales tax collections for FY 2024-25 were \$5.8M (3.0%) above the adopted budget and \$4.8M (2.3%) less than FY 2023-24 actual collections. It should be noted that many of the categories are positive, reflecting continued consumer spending, although slowing from the prior year as Intel winds down their project. Contracting/development collections and Personal Property Rentals are down as the Intel project slows and residential rental tax elimination has impacted the Real Property Rentals category. Use tax is a highly fluctuating revenue category and significant swings in collection percentage are not abnormal.

Negative

Franchise fees are paid by Arizona Public Service (2% of commercial and residential sales), Southwest Gas Corporation (2% of commercial and residential sales), Cox Communications (5% of gross revenue), Air Products (2% of gross sales), and Western Broadband (5% of gross sales).

Franchise fee collections for FY 2024-25 were \$842,401 (23.1%) below the adopted budget and \$575,452 (17.0%) less than FY 2023-24 actual collections. The performance indicator is a negative as the percentage of budget received was five or more percentage points below the historical budget received at fiscal year-end. Additional review is ongoing in the drop in the cable franchise category of revenue collected to quantify if the reduction in the current year was related to one-time revenue decreases or should be updated to reflect ongoing changes to revenues.

* Pro-rated based upon a four year historical trend of actual year-to-date collections

Positive

This presentation only includes primary property taxes (supporting General Fund operations) and does not include secondary property taxes (supporting debt service on capital projects and recorded in the General Obligation Debt Service Fund). Property tax collections are due starting October 1st and March 1st each year. For FY 2024-25, Chandler is collecting a primary tax rate of \$0.2126 per \$100 of assessed valuation and a secondary tax rate of \$0.87 per \$100 of assessed valuation for a total rate of \$1.0826, representing a \$0.01 cent decrease from the rates adopted in the prior year. This reduction helps offset some of the City's assessed valuation increase of 4.7% related to appreciation, which resulted in a small net tax increase for the median value homeowner.

Primary property tax collections for FY 2024-25 were \$352,584 (4.0%) below the adopted budget and \$195,503 (2.3%) less than FY 2023-24 actual collections. The majority of collections come in the second and fourth quarters since the first half of the property tax bills are due in October and the second half are due in March. The performance indicator is a warning as the percentage of budget received was between two to five percentage points below the historical budget received at fiscal year-end, however with the reductions anticipated due to the Qasimyar court ruling, the indicator was changed to positive as the reduction in revenue was anticipated. The Qasimyar vs. Maricopa County Class Action Lawsuit refunds impacted taxpayers that changed the use of their home from a residential home to a rental home between 2015 and 2021 when the home values had been lower.

Positive

-- **State Shared Sales Tax Revenue:** The State sales tax rate is currently 5.6%, of which a portion of the various categories of sales tax are distributed to cities and towns based on population as State Shared Sales Tax Revenue. Collections for FY 2024-25 were \$1.5M (3.6%) above adopted budget and \$623,859 (1.5%) higher than FY 2023-24 actual collections.

-- **Smart and Safe (State Shared Revenue):** Prop 207 was approved by voters in 2020 and created a 16% excise tax on the sale of recreational marijuana effective 2021. Fire and Police departments receive revenue based on the number of employees enrolled in PSPRS at the time. Collections for FY 2024-25 were \$307,970 (23.5%) above adopted budget and \$112,769 (7.5%) higher than FY 2023-24 actual collections.

-- **Vehicle License Tax:** Cities and towns receive 25% of the net revenues collected for vehicle licensing within their county from the State, as well as surcharges from vehicle rentals. The respective city share's are determined by the proportion of city population to total incorporated population of the county. Collections for FY 2024-25 were \$1.6M (11.6%) above adopted budget and \$674,629 (4.7%) higher than FY 2023-24 actual collections.

-- **Urban Revenue Sharing:** Eighteen percent (18%) of the 2022 State income tax collection is distributed to cities and towns as urban revenue sharing based upon estimated population. Collections for FY 2024-25 were \$500,653 (0.8%) below adopted budget and \$14.8M (19.9%) less than FY 2023-24 actual collections, which reflects the known reduction as the full impact of the flat tax went into effect.

The overall State Shared revenue performance indicator is positive as actual collections exceeded the amount budgeted at fiscal year-end.

This category includes revenue for various licenses: transaction privilege (sales) tax, alcoholic beverages, transient merchants, peddlers and solicitors, secondhand and junk dealers, amusements, business registrations, and professional/occupational licenses, as well as cable license application fees. In addition, revenue from building, alarm, and fiber optic permits are included. License and permit collections for FY 2024-25 were \$6.8M (98.0%) above adopted budget and \$8.7M (171.2%) higher than FY 2023-24 actual collections. Lower collections for FY 2023-24 were anticipated as large industrial permits inflated the historical comparison, however we are also seeing a slowing of other permit related revenues. Higher collections in the first three quarters of FY 2024-25 reflects large receipts recorded for industrial permits. The performance indicator is positive as actual collections exceeded the amount budgeted at fiscal year-end.

* Pro-rated based upon a four year historical trend of actual year-to-date collections

Positive

Other revenue captures interest income, fines and forfeitures, court fees, sale of land and fixed assets, and other miscellaneous items. Revenue streams in this category are not constant. Higher collections in the first three quarters of FY 2024-25 reflects interest income due to higher balances and rates. Other revenue collections for FY 2024-25 were \$7.7M (74.7%) above adopted budget and \$4.8M (37.0%) higher than FY 2023-24 actual collections. The performance indicator is positive as actual collections exceeded the amount budgeted at fiscal year-end.

* Excluding Interfund Transfers

Total General Fund operating expenditures and encumbrances are reflected by City function, along with budgeted non-departmental reserves (encumbrance and unencumbered carryforward, utility, fuel, and downtown redevelopment) and contingencies (15% of revenues and Council Contingency). Since General Obligation debt and General Fund capital expenditures are reflected in the General Obligation Debt and General Capital Projects Funds, this presentation only includes General Fund operating expenditures to more clearly reflect the results of operations.

The chart reflects fiscal year-end actual spending and encumbrances for FY 2023-24 and FY 2024-25. Non-Dept. The Personnel and O&M (maroon category) decrease mainly reflects the difference in the amount of the prior year's payment of \$73M towards the Public Safety Personnel Retirement System (PSPRS) unfunded liability payoff, to the current year's payment of \$7M. Public Safety's (blue category) increase mainly reflects higher personnel and technology related costs. General Government (green category) increased due to professional services, higher utilities citywide reflected in Building & Facilities, and personnel costs. All other areas remained fairly consistent.

FY 2024-25 operating expended and encumbered at fiscal year-end reflects 93.5% of the adjusted budget compared to 91.9% of adjusted budget spent and encumbered in the prior year. As shown on the following pages, departments (excluding non-departmental) have expended between 85.8% and 98.4% of their General Fund adjusted budgets for FY 2024-25.

Total	\$ 378,907,267	\$ 316,471,700	\$ 355,096,471	-10.9%

* Excluding Interfund Transfers

Total General Fund operating expenditures and encumbrances are reflected by spending category. Personnel spending for FY 2024-25 is 15.7% less than spending for FY 2023-24. The majority of the decrease was due the \$7M payment to the Public Safety Personnel Retirement System (PSPRS), versus \$73M in the prior year and also includes other citywide personnel cost increases and FTE changes. Operations and maintenance spending through for FY 2024-25 is 7.5% higher than spending for FY 2023-24. Some of the increase reflected higher spending and encumbrances for Fire, Police, Neighborhood Resources, and IT professional services.

Grants are an additional source of funds for major capital projects and certain operating programs. Grant sources include federal, state, and county governments as well as donations from businesses, organizations, or individuals to support particular programs. In most cases, grant revenues for many programs are received on a reimbursable basis, so the revenue on a large capital project may lag a fiscal year after the project is initiated. The Federal Grant changes that continue to be proposed will impact some categories and is being monitored. Actual collections for FY 2024-25 were \$42.1M as compared to \$40.1M as collected for FY 2023-24.
