City of Chandler, Arizona Results of Procedures

Procedure A

Compared growth projections for 2023 and 2024 related to dwelling units, population, and the various commercial square footage units as reported in the City's Land Use Assumptions and Infrastructure Improvements Plan (IIP) to actual current amounts for the proportionate 10-year projections. A list of all variances will be reported.

Exception:

Variances were noted for growth projections for dwelling units, population, and the various commercial square footage as reported in the Land Use Assumptions and Infrastructure Improvements Plan when compared to actual results.

Management Response:

Assumptions of equal growth of land development and the resulting fees averaged over a set period of time do not reflect the reality of how development occurs. Variances exist due to market conditions, demand for various types of land use and structures, the condition of the economy, and the availability of capital. The City of Chandler continues to take into account annual planning projections, entitled projects, and variations in construction permits to augment the equal growth assumptions when forecasting.
