MEDIATION 101

Mediation allows Chandler residents to voluntarily participate in a conflict resolution process outside of a court system. A mediator is present at all times to ensure and moderate active and engaging discussion that seeks a resolution. Through well-trained mediators, Chandler residents can be assured that they will not only be able to express their concerns and viewpoints, but also work in conjunction with the mediator to brainstorm, discuss, and eventually select a solution that is long-lasting and thorough.

Mediation services through the City of Chandler are currently being offered at no cost to residents and are flexible in the nature of the dispute as well as the timeline for sessions.

Why Mediation?

In partnership with the Arizona Summit Law School, The City of Chandler is proud to offer a new Neighborhood Mediation Service. This program is designed for the enhancement of clear and constructive communication within neighborhoods and between neighbors. With trained and certified mediators with knowledge of conflict resolution, this service strives to provide an accessible medium for neighbors to voice their concerns in a civil manner and jointly reach solutions that reinforce positive community values between neighbors. As both an awareness program and City service, mediation provides an inexpensive, but quality experience for facilitating sustainable solutions to ongoing conflicts that may arise within neighborhoods.
