ARTICLE XIX. - SITE DEVELOPMENT PLAN

35-1900. - General requirements.

(1) Any of the following development activities for property located within a Planned Area Development (PAD), Commercial, Industrial, Mobile Homes, or Multiple-Family zoning designation, except as provided in section 1902.2, shall be subject to the requirements of this article for site development plan improvements:

(3) The approved site development plan shall be effective for a period of one (1) year from the date of approval by the building division. Resubmittal thereafter shall be subject to any amendments of the Zoning Code or development policies adopted since the approval date. MODIFICATIONS TO THE APPROVED SITE DEVELOPMENT PLAN SHALL BE SUBJECT TO AMENDMENTS OF THE ZONING CODE ADOPTED SINCE THE APPROVAL DATE.

(5) Building design:
(a) **Quality:** Architectural style is not prescribed; the design, however, shall convey a high degree of quality commensurate with the neighborhood and as prescribed in the Chandler Comprehensive GENERAL Plan. A standard building design for some other location, climate, environment or set of circumstances may not necessarily fit in a given location in Chandler and shall be modified to be harmonious with the immediate environment and meet the intent set forth in this paragraph.

(8) **Additional requirements for shopping centers, office and commercial complexes:**

(c) **Independent building PADs PAD SITES:** For the purpose of this section, commercial PADs PAD SITES are uses that stand apart from, and hence not perceivable as, part of the main building complex. PADs PAD SITES may be developed as single freestanding uses, such as a restaurant or bank, or a cluster of uses sharing common architectural detail and materials, open spaces, and shaded areas and pedestrian connections. The number of PADs PAD SITES permissible in a shopping center shall be limited to one (1) per arterial street frontage, with corner PADs PAD SITES to count as one (1) of the frontage allowances. Multi-user PADs PAD SITES are permitted only when the uses are integrated and clustered within a common open space with seating areas and pedestrian walks, share common architectural details and materials (i.e., color, texture) portrayed by the main complex, and not separated by vehicular movement. The number of uses on one (1) PAD SITE shall not exceed two (2) although the Commission may consider a larger number through the PAD PLANNED AREA DEVELOPMENT (PAD) process when environmentally commensurate with the size and scale of the shopping center.

1. **Circulation:** One (1) drive-up or drive through window per PAD SITE is permissible as long as the drive-up does not conflict with parking maneuvering areas, main-stream vehicular movement, or in itself create an unsafe traffic situation. Drive through lane entry and exit shall be separated from vehicular parking areas, through curbing, landscaping, etc. Textured paving treatments shall be provided at all crosswalks, driveway entrances, and on-site pedestrian crosswalks. All drive-up facilities, including drive-up lanes and queuing areas shall be adequately screened from street view by building orientation, or by a landscaped berm and retaining wall measuring four (4) feet from grade of the driving lane, and situated so as not to disrupt safe traffic flow. Queuing lanes for fast food and similar high turnover uses shall be a minimum of fourteen (14) feet in width and at least one hundred fifty (150) feet in length from drive-up window to start of lane with queuing. Queuing shall be provided to accommodate a minimum of six (6) vehicles from the start of lane to the menu board. This queuing length standard is not intended for such uses as drug stores, banks, dry cleaners, etc.

2. **General design:** All PADs PAD SITES, though isolated from the main complex, shall be designed to provide a landscape and architectural setting to the larger complex. Any PAD SITE building(s) twelve thousand (12,000) square feet or greater in building area, located within any commercial site that is ten (10) acres or greater in size, shall be allowed to be constructed prior to the balance of the commercial center. Any PAD SITE buildings twenty-five thousand (25,000) square feet or less in building area,
located within any commercial site that is less than ten (10) acres in size, shall be constructed concurrently or subsequently with at least twelve thousand (12,000) square feet of additional building area in the commercial center.

Freestanding building adjacent to the main complex structures will not be considered **PADs PAD SITES** if the freestanding building is not separated from the larger complex by vehicular movement, improved vehicular surfaces, or retention area.

**PAD SITE** buildings shall portray detailed exteriors on all sides to avoid blank or monotonous faces: wall perimeters shall be landscaped. In no case shall parking areas or other improved surfaces for vehicles extend to building walls. **PADs PAD SITES** shall not exceed one (1) story in height.

3. Any high turn-over uses (fast food, convenience stores, service stations, etc.) must be integrated within larger planned commercial and office centers. However, on-sites where the contiguous area is generally insufficient to allow a larger planned center, relief may be considered through the provisions of the Planned Area Development (PAD) process, subject to approval by City Council.

…

(g) **Additional quality standards:** The intent of the following standards is to encourage creative and innovative design techniques, quality and merit. A minimum of six (6) of the following items shall be achieved for shopping centers, office and commercial centers.

1. Provide direct collector street access to commercial center.

2. Locate at least fifty (50) percent of freestanding **PADs PAD SITES** within a landscape setting along an arterial streetscape.

35-1903. - Landscaping.

…

(6) **Standards:** All turf areas equal to or greater than five (5) acres in size shall be watered exclusively with reclaimed water when reclaimed water is available in the arterial street. All infrastructure need to accept reclaimed water when it is available in the arterial street shall be installed as a part of the development. When effluent is used, all turf areas equal to or greater than five (5) acres in size shall be overseeded with a winter lawn. All new developments AND MODIFICATIONS TO EXISTING DEVELOPMENTS shall be landscaped in accordance with the following minimum standards.

(a) **Plant material:**

1. **Low-water-use plants required:** Except when reclaimed water is used, plant material species (trees, shrubs, ground cover, vines, etc.) shall be limited to those which are included within the latest amended edition of the "Low-Water-Using Plant List" approved by the Director of the Phoenix Active Management Area of the Arizona Department of Water Resources (appendix A). Any plant material species may be used if irrigated by a reclaimed water source.
2. *Arizona Nursery Association—Tree specifications:* All trees shall comply with the latest amended edition of the "Arizona Nursery Association — Recommended Tree Specifications" (appendix D).

3. *Minimum planting size:* Unless specified elsewhere, all plant material shall be of the following minimum sizes:

Failure of a property owner, or minority of property owners, or Registered Neighborhood Organizations to receive this notice, however, shall not invalidate the application if, in the opinion of the Zoning Administrator, a reasonable effort to notify all parties has been made. Receipt of these mailing labels shall be a prerequisite to scheduling of public hearings by the City. These requirements may be waived by the Zoning Administrator if circumstances so warrant.

C. If the Commission has held a public hearing, the City Council may adopt the recommendations without holding a second public hearing if there is no objection, request for public hearing or other protest. The City Council shall hold a public hearing if requested by the party aggrieved or any member of the public or of the City Council or, in any case, if no public hearing has been held by the Commission. ARTICLE XXIX. - P.C.O.—PLANNED COMMERCIAL OFFICE DISTRICT

35-2900. - Purpose.

The purpose of this district is to provide sites for the development of office and related uses in a manner which is attractive for such uses and compatible with the surrounding neighborhood. This district will generally serve to provide a transition from, and occur between commercial districts and residential districts in developing areas of the City. In addition, certain other kinds of uses are permitted under conditions and standards which assure their compatibility with a general concentration of office use, as well as with residential districts which may adjoin the P.C.O. District.

35-2905. - General provisions.

(3) Signs: All signs shall be in accordance with the City of Chandler Sign Code [Chapter 24 39].

ARTICLE XXXI. - AP-1—AIRPORT DISTRICT

35-3100. - Purpose and intent.

The purpose of this district is to provide for aircraft operations, air services, and related commercial uses for all portions of land comprising the Chandler Municipal Airport as owned or leased by the City of Chandler. The development regulations of this district are intended to establish building heights, setbacks, and other site development standards in the interests of safety and compatibility with airport operations, and to ensure the development quality of a public land use. Since the boundaries of this district are intended to coincide exactly with the property lines of those parcels owned or leased by the City for operation of the airport, it is not intended as a rezoning classification to be sought by, or to be applicable to, private interests for off-airport parcels or uses. Off-airport uses shall be considered under other zoning designations, such as Planned Area Development (PAD), as appropriate to particular needs and circumstances.

The purpose of this district is to provide certain land uses and development standards which promote a special character and visual identity exclusively for the City Center immediately surrounding A.J. Chandler Park. This district is intended to be separate and distinct from any other area of the City, based upon limitations of lot sizes and lot widths, building setbacks, parking availability, sidewalk colonnades, signage, and architecture, all stemming from its origin as part of the City's historic town-site. As such, this district is unique and limited in its intent to accommodate only those uses and standards which promote specialty retail, cultural, dining, entertainment, and other storefront businesses traditional to a downtown setting.

35-3203. - **Uses requiring use permit approval (CCD zoning district).**

E. **F.** Transient service facilities, subject to the policy guidelines set forth in Resolution No. 2379, adopted by Council on July 13, 1995, and as may subsequently be amended.

F. **G.** Upper floor residential dwelling units, but excluding in all cases any single-room occupancies.
